

## HURRICANE TEARS INTO LOUISIANA

SOVIET ENVOY  
CALLS DULLES  
WAR-MONGERMARSHALL U. N. PLAN  
TURNED DOWN IN  
BITTER SPEECH

BY FRANCIS W. CARPENTER

New York, Sept. 18. (P)—Andre Y. Vishinsky, Soviet deputy foreign minister, cried "war-monger" today at John Foster Dulles and eight other leading Americans and turned down flatly the new Marshall plan for remodeling the United Nations.

The war-monger charge was thrown directly at Dulles.

Dulles was sitting with the U. S. delegation midway in the U. N. assembly hall as the Russian chief delegate vigorously flayed nations and personalities in the basic Soviet policy statement to this session of the assembly.

Dulles began making quick notes and the audience tensed perceptibly when he heard Vishinsky single out a delegate in the hall for part of his attack.

Tough Talk Denied  
Vishinsky declared that Dulles in a speech in Chicago on Feb. 10, 1947, urged a "tough foreign policy against the Soviet Union."

Dulles, obviously with the approval of Secretary of State Marshall, issued the following statement after Vishinsky spoke:

"I did not make the statement which Mr. Vishinsky attributed to me. I have repeatedly said and I say again that another war need not be and must not be; and I have dedicated myself to that end."

"I am confident that the assembly will quickly forget the violent personal attacks made by Mr. Vishinsky and proceed constructively, creatively, and I hope, harmoniously, to deal with its important business."

Vishinsky charged that the Americans he named had made anti-Soviet speeches and statements. Then he summed it up this way: "The meaning of these statements is clear. They are poorly camouflaged instigation for war against the U. S. S. R."

As for Russia's aims, Vishinsky said the "war mongering propagandists" know that "the Soviet Union is not threatening in any way with an attack on any country," and many of the delegates said later the deputy foreign minister had made clear his country did not want war.

Vishinsky, hitting hard at the U. S. policy supporting Greece, proposed that the assembly adopt a resolution calling on the U. S., Turkey and Greece to halt "the propaganda of a new war" which he said was being carried on by "reactionary circles."

No U. S. Applause

The resolution also called for outlawing atomic and other weapons of "mass extermination" as being in the interests of "all the peace loving nations" and as "the heaviest blow upon the propaganda and the instigators of a new war."

The chief Russian delegate, No. 1 deputy to Foreign Minister V. M. Molotov, blamed the United States and Britain specifically for the slow progress on atomic energy control and arms limitation—two points advocated by Soviet Russia last year.

He labelled the Marshall plan announced yesterday as an "ill-conceived scheme to substitute and

Food Price Spiral  
Halted By Drop In  
Four Commodities

(By The Associated Press)

The principal commodities consumed by the American public—meat, grains, butter and cotton—slumped in price at most major markets throughout the nation Thursday bringing at least a temporary halt in the upward cost-of-living spiral.

A drastic slash in November grain exports to shortage areas abroad touched off a selling wave on the Chicago Board of Trade that drove wheat prices down 10 cents and corn down eight cents in the first few minutes of trading—the maximum price decline permitted under board regulations.

The drop was the first reaction of the market to the announcement of the agriculture department Wednesday night that November grain export allocations would be held to 29,514,000 bush-

els, a drop of 35 per cent from October and 43 per cent under the July-October monthly average.

The declines came at a time when wholesale food prices had reached new all-time peaks. The Bureau of Labor Statistics reported in Washington that wholesale foods and farm products prices set a new record high during the week ended Sept. 13. Dun & Bradstreet reported a new peak was reached Sept. 16.

After wheat and corn dropped the limit in Chicago, some commercial buying developed and wheat closed 6 to 8¢ lower, September \$2.53 1/2 to \$2.54 1/4 and oats were down 2 1/4 to 3¢, September \$1.17 1/4 to \$1.18 1/4.

The decline in Chicago grains was matched by sharp drops in grain prices in such marketing centers as Minneapolis and Kansas City.

All classes of livestock were sharply lower at Chicago and the trend was general in the nation's 12 principal livestock markets. Buyer resistance at the wholesale and retail level was credited in part for the general decline.

Egg futures in Chicago dropped as much as 1 1/2 cents today, and butter futures were down one half to nearly a cent today, the third successive daily decline. November butter was 71 cents a pound.

On the Chicago livestock market, slaughter calves were down \$1 to \$2 a hundred pounds; bulls steady to 50 cents lower, cows weak to 25 cents lower and vealers steady. A top steer price of \$34.50 compared with \$35.75 yesterday.

Buyer resistance was credited with causing a two to three cents a pound drop in wholesale butter prices in Baltimore and a 2 cents a pound decline in cartons at Columbus, O.

TEAMSTERS NOT  
SECURE IN AFLTobin Blames Split In  
Labor Ranks For New  
Taft-Hartley Law

Terre Haute, Ind., Sept. 18. (P)—Daniel J. Tobin, president of the International Teamsters Union, hinted at possible withdrawal of his group from the American Federation of Labor tonight in connection with refusal of the AFL general executive council to sign the non-Communist affidavit required by the Taft-Hartley law.

Speaking before a meeting of the Indiana State Drivers Council, Tobin said, "If Denham keeps on he may force me to go independent."

The teamsters president referred to a ruling by Robert Denham, attorney for the National Labor Relations board, that no AFL union was entitled to use services of the NLRB unless all members of the general executive council signed the non-Communist affidavit.

Signing of the affidavit was blocked by John L. Lewis, head of the United Mine Workers Union and a member of the executive council.

Earlier today, Tobin had said to more than 1,000 delegates to the Indiana Federation of Labor convention here, "I only joined the AFL once and I hope I never have to join it again." He said also that "division in labor is responsible for labor's being saddled with the Taft-Hartley law."

Seaman Sets Two  
Hotel Rooms Afire;  
Sent Back To Ship

Detroit, Sept. 18. (P)—A merchant seaman who set two hotel room fires with cigarettes in as many days and was burned in the second blaze was ordered back to ship today by a judge who said he couldn't take a chance on a fire in a city hospital.

James Brock, accused of violating the city's anti-hotel room bed smoking ordinance, was let off with a \$50 fine on his first offense Wednesday.

Today, when he reappeared, a fire inspector pleaded for leniency on the ground Brock had learned a lesson by being burned. "This man will need hospitalization and I can't take a chance on a fire in Receiving Hospital," said Judge John D. Watts. "Better get him out of town."

Then he released Brock in the custody of a CIO Maritime Union official with the stipulation the sailor "get back to his ship in New York harbor."

Seasoned Career  
Workers Get Back  
On Federal Payroll

Washington, Sept. 18. (P)—The Civil Service Commission took drastic steps today to remove temporary wartime employees from federal agencies in order to reinstate 1,900 "career" workers who lost their jobs in the postwar reduction of government payrolls.

The commission, spurred by President Truman's championing of the career workers, ordered that beginning Monday, three war-service or temporary employees must be dismissed for every one of the seasoned workers available for a job.

Appropriations cuts and the natural lay-offs resulting from the return to peace have caused the dismissal of 1,680,000 persons from government service in the past two years, President Truman said. Most of these were temporary employees but in the shuffle some of the career people lost out.

RENOUNCES RACE—Inspired by Sinclair Lewis' novel, "Kingsblood Royal," Rev. Kenneth L. Patton, above, 36-year-old Madison, Wis., Unitarian minister, has said that he will henceforth consider himself a "colored man." Unlike the fictional hero, Patton has no Negro blood, but is part Indian. He believes his action will enable him to wage war on discrimination and intolerance.

STATE SOLONS  
MEET SEPT. 29Action To Be Taken On  
\$410,200 Needed For  
Veterans Groups

Lansing, Sept. 18. (P)—The legislature today was called to convene at 10:30 a. m. Monday, Sept. 29, to pass again on a \$410,200 appropriation to Michigan veterans organizations.

Issuing the call, Governor Sigler included only the appropriation act in the agenda, so it was expected the session would last only one day.

The act, passed in the last moments of the regular session June 6, lacked the necessary two-thirds majority for appropriations to private agencies, Attorney General Eugene F. Black has contended.

Loss of a \$120,000 appropriation to the American Legion Children's Bill at Otter Lake and the resulting lack of funds to care for 100 children there was described by Sigler as the principal reason for summoning the legislature.

Other organizations receiving state grants under the act were the American Legion, Disabled American Veterans, Veterans of Foreign Wars, Grand Army of the Republic and the United Spanish American War Veterans.

Russia Can't Wage  
War For 25 Years,  
Specialist Declares

Washington, Sept. 18. (P)—Russia won't have the industrial capacity to wage war against the United States for at least 25 years, Ernest G. Ropes, chief of the commerce department's Russian section, said today.

"They haven't got the stuff" for a war now, won't have it for at least 25 years and possibly not even after 50 years, Ropes told a reporter.

"We don't need to worry about Russia as a potential enemy," Ropes, who plans to retire this month after 24 years of specializing on the Soviet, said much of the nation's building up is directed toward building up heavy goods industries, notably steel, railroad and farm equipment.

Only about one-third of the Soviet effort goes into consumer goods, he said.

Ropes was speaking only of the industrial production of Russia itself. He did not speculate on how much the industrial capacity of Russian satellites and the Russian zone of Germany might increase the Soviet's war potential.

School Blast Kills  
Maintenance Man;  
350 Pupils Saved

Sonoma, Calif., Sept. 18. (P)—A gas furnace in Sonoma Union high school exploded today, killing the school maintenance superintendent and shattering 350 pupils who fled to safety.

The explosion instantly killed Bernard (Ben) Myers, about 70, for 22 years maintenance man for the school.

No students were hurt. The blast jammed doors and cracked walls in the immediate vicinity of the furnace room in the basement.

Cause of the explosion was not announced, but presumably resulted from ignition of an accumulation of gas.

NAMED ALMA MANAGER  
Alma, Mich., Sept. 18. (P)—W. G. Lanterman, 38, of Charlotte, Mich., today was appointed Alma city manager at a salary of \$5,400 annually. Lanterman, a registered engineer, was chosen by the city commission from a list of eight candidates.

Republicans Warn  
Truman Of Coming  
Drive To Cut Taxes

Washington, Sept. 18. (P)—President Truman got advance notice today that if Congress is called into extra session this fall the Republicans probably will send him another bill to cut taxes by \$4,000,000,000 or more.

Speaker Martin (R-Mass.) told a news conference that a special session, to deal with foreign financial problems or domestic prices, "would open up everything" for consideration—and he specifically mentioned taxes.

"I feel it is essential to the economy to cut taxes," he said. "We can't have wartime taxes forever in peacetime."

Mr. Truman twice used his veto power earlier this year to kill a Republican-backed \$4,000,000,000 tax trimming bill.

Martin said his private reports "from very good sources" indicate there is no immediate danger in Europe from starvation.

The speaker will leave Monday to fill a number of speaking engagements in the midwest and far west.

Asked if he would become a candidate for president if "drafted" by the Republican convention, Martin said he doubts if any man in public life would refuse to run if the party demanded. But he said he does not expect that to happen to him.

He declined to express his choice for the nomination. Asked specifically what he thinks about Gen. Dwight D. Eisenhower, he said the general "is a pretty good man."

Leaving here next Monday, Martin will visit Chicago, Sept. 23; Milwaukee, Sept. 24; Denver and Boulder, Colo., Sept. 25; Topeka, Sept. 26; San Francisco, Oct. 3 and 4; Los Angeles, Oct. 5, 6 and 7; Fresno, Oct. 9; Salt Lake City, Oct. 10; and Rockford, Ill., Oct. 21.

He plans to spend the week starting Oct. 13 in Rapid City, S. D., as the guest of Gov. George T. Mickelson.

BILLION NEEDED,  
ITALY REPORTSDollar Shortage Gloomy  
In Nation Plagued  
By Leftists

Washington, Sept. 18. (P)—Italy has notified the United States it needs about \$1,000,000,000 in outside assistance to meet the immediate economic crisis and survive through next year, American officials said today.

Italian Ambassador Alberto Tarchiani told Undersecretary of State Robert A. Lovett of these needs at a conference two days ago when he presented another gloomy report on the dollar shortage in his country.

These funds would be used, according to the Italian plan, to buy American grain, coal and raw materials for Italian industry.

U. S. officials said experts are now going over the Italian balance sheets to see what this country can do to help maintain order in Italy, now plagued by leftist-led strikes against the non-Communist government.

New Hudson Cars  
To Have Radical  
Change In Design

Detroit, Sept. 18. (P)—The Hudson Motor Car Co. announced tonight that it will close its final assembly lines tomorrow to complete a hangover to a new model described by A. E. Barit, president, as "entirely different from any automobile ever mass-produced."

Only a few details of the new model were disclosed. Barit said the new car will have a lower center of gravity than any other American automobile and that it will be only five feet from the ground to its top.

He added: "It is a car which, upon entering, you step down into, not up on."

The new car will be produced with a redesigned super six engine and also with an improved super eight engine.

Benton Harbor Has  
Mystery, Body Of  
Woman In Brush

Benton Harbor, Mich., Sept. 18. (P)—A mystery was posed today in the discovery of the body of a well-dressed woman lying in dense underbrush beside a road near here.

Three boys coming home from swimming stumbled on the body, and police began an immediate investigation in an effort to determine the woman's identity.

Coroner Louis Kerlikowski said the decomposed condition made it impossible to determine the cause of death, but he theorized the woman might have been thrown or had fallen from a car.

Year-Round Adoption  
Of Fast Time Voted  
By Escanaba Council

Ending a long community debate as to whether the city should revert to slow time, employing daylight savings time only during the summer months, or adopt fast time the year 'round, the city council last night voted to keep the city on Eastern Standard or fast time all year.

DETROIT GARAGE  
PICKETS HALTEDFour Injured As Roving  
Bands Break Windows  
And Battle Police

Detroit, Sept. 18. (P)—Three automobile agencies obtained court orders to stop mass picketing today after roving bands of striking CIO garage mechanics battled with employees, police and customers on garage premises.

Four men were injured, three were arrested and seven police glass windows were smashed, police said, as the several hundred pickets shifted from one agency to another.

Six windows at one agency were smashed with rocks and one picket, Thomas Howard, was arrested on a charge of malicious destruction of property.

Gordon F. Walker was slugged and fell to the street as he walked past the picket line. The subsequent arrest of Angelo J. Daddie, a picket, on an assault and battery charge touched off a skirmish between police and strikers.

Walker told police he had left his car at the garage for repairs and was calling to pick it up. Officers said he apparently was mistaken for a "scab" by the pickets.

Local 415 of the CIO United Auto Workers is demanding a wage increase for the mechanics and a city-wide master contract.

Both locals were named in \$50,000 damage suits by the three auto agencies and were ordered by Circuit Judge Vincent M. Brennan to stop mass picketing pending a hearing.

German Physicians  
Seeking To Revive  
Nazi Sterilization

Hamburg, Germany, Sept. 18. (P)—Re-introduction of Nazi sterilization laws in Germany is being sought by a group of German doctors.

The sponsors of the plan, Prof. Heinrich Schulte of the Bremen Nervous Diseases Clinic and Dr. Heinrich Pette, director of Hamburg's Neurosis Clinic, said today a committee of experts had been appointed by the doctors to study the question.

He said the laws existing during the Nazi regime provided for the sterilization of the insane and sufferers from hereditary diseases.

Rail Brotherhoods  
To Ask Pay Raise  
Effective Nov. 1

Cleveland, Sept. 18. (P)—Wage committees of five operating rail brotherhoods today announced they would serve on the nation's railroads Sept. 30 a demand for wage increases of 30 per cent for their 350,000 members, with \$3.00 set as the minimum raise on a basic day's rate, to become effective Nov. 1.

Previous indications had been that the five Brotherhoods would ask an increase of 30 cents an hour.

President Returns  
From Rio Today;  
Work Accumulates

Aboard U.S.S. Missouri with President Truman, Sept. 18. (P)—President Truman will return to the United States tomorrow from the Rio de Janeiro conference to face an accumulation of foreign and domestic problems.

The "Mighty Mo," which he boarded a week ago Sunday after receiving the acclaim of Brazilians, is due in Norfolk before noon, after being out of sight of land virtually since it pulled out of Rio de Janeiro.

## JETT KILLS MECHANIC

Muroc, Calif., Sept. 18. (P)—Maurice G. Bricka, 37, an airplane mechanic, was drawn head first into the air intake of a O-47 plane at the Army air field here today and killed.

Officials at the field said Bricka was standing four feet from the huge plane when he was sucked into the intake during an experimental test.

NEW ORLEANS  
GETS SET FOR  
SAVAGE GALESFLORIDA COUNTS UP  
MANY MILLIONS IN  
STORM DAMAGE

New Orleans, Sept. 19. (Friday) (P)—Storm winds of 75 miles an hour or higher threatened this historic city today as a vicious, unpredictable hurricane swept toward land from the Gulf of Mexico with widespread distress and multi-million dollar damage already in its wake.

The weather bureau reported last night that the center of the hurricane was expected to strike by mid-morning near the mouth of the Mississippi river, approximately 50 miles south of the city. Blasts of hurricane force were predicted for that area by daylight and for New Orleans a few hours later.

Velocities up to 100 miles an hour prevailed at the storm's core, located at 11 p. m. last night 140 miles east southeast of Burwood, La., east of New Orleans. Its lateral movement at that time was about 15 miles an hour.

Extreme caution was urged by the weather bureau against devastating winds and tides from north-west Florida to Louisiana. Winds of gale force blew over that sector last night.

The great storm's path has been erratic since it rose up out of the Caribbean eight days ago. After pointing northward, it veered westward into the south Florida "gold coast" and blasted the rich and heavily-peopled peninsula for 12 hours. Winds rose to 120 miles an hour and higher.

Florida property damage already has been tabbed at \$12,000,000 with the figure still mounting. Only four persons were known to have lost their lives but hundreds of minor injuries and thousands were driven from their homes and suffered hunger and other hardship.

Past Disasters Recalled  
The fearful winds left Florida at Fort Myers on the west coast at last midnight and began weaving off shore up the Gulf coast. At first they threatened to center their fury on the Pensacola-Apalachicola sector of the Florida coast.

New Orleans, huge port city and center of southern culture, is no stranger itself to storm disaster. A 120-mile an hour blow struck it in 1915 and left 350 persons dead in the city and in neighboring Louisiana and Mississippi Gulf areas. The ill-fated Cheniere Caminada storm of 1893 snuffed out 3,000 lives in coastal Louisiana, although the city itself did not suffer heavily.

With these disasters still remembered, Gulf coast residents took every precaution against the latest threat.

As the gigantic storm hovered about 150 miles south of Valparaiso, Fla., and 200 miles away from the Louisiana shore at 9:15 p. m. (Central Daylight time), panicky refugees either fled from coastal danger spots or boarded up in sheltered homes or buildings.

# Council Authorizes Engineer To Design New City Steam Plant

## Plan Location Of Unit At Lakefront Site; Its Cost Will Be \$60,000

Acting on the recommendation of Laramore and Douglass, Inc., Chicago, consulting engineers for Escanaba, and City Manager A. V. Aronson, the city council has authorized the city engineer to design a new steam plant building to be constructed between Third and Fourth streets east of the Delta Hardware company warehouse.

By unanimous vote, the council authorized construction of a new plant of unlimited scope as a necessary step in providing adequate room and facilities for any necessary future expansion.

It was pointed out emphatically that the old plant is inadequate to supply the city's needs, provides no room for expansion on a long-term program, and in its present location on First avenue North between Seventh and Eighth streets, it was stated, the old plant is an eyesore and a smoke and soot menace to the business district.

**Old Plant Unsatisfactory**  
It is estimated the new building will cost approximately \$60,000. This includes erection of a stack, pumps and other pertinent equipment. This cost is in addition to \$30,000 already appropriated for erection of a new boiler, turbine and installation of a connecting main.

City Manager Aronson pointed out that under a long-term program, it was more feasible to expend \$60,000 for construction of a new and modern plant at a more advantageous location—an area one block square at the lake front away from the heart of the business district—than to install the \$30,000 boiler and turbine at the old plant.

"The old plant has not been satisfactory for many reasons," he said. "Its location is not desirable. It is overloaded, and with the steadily increasing demand for more steam heating service in Escanaba, it is the consensus of expert engineering advice that, in order to make provision for long-term development, a new plant should be erected at the lakefront site."

**Steady Demand Increase**  
"We were faced with the problem of going ahead with a new plant or erecting a \$30,000 boiler at the present plant location, which probably would have to be moved in the future at additional expense. It was deemed more feasible to embark on a long-range program at the present time."

The city manager pointed out that consumption of steam power has increased from 3,415,818 pounds in 1936-37 to 60,000,000 in 1946-47. In 1940-41, the output reached the capacity of the boiler in the old gas plant—6,227,000. In the then new building, it reached 12,207,000 in 1941-42 and last year, the output was about 60,000,000.

"And there is an increasing demand upon the city for more steam heating service," he declared.

The smoke and soot menace

will be practically eliminated at the new plant because of more efficient equipment and a more consistent load, which will enable employees to regulate the pressure and maintain an even rate of coal combustion.

**Explains Smoke**  
"The sudden increased rate of coal combustion with an inconsistent load, plus lack of working room, which made it impossible to remove ashes without stirring up the fire, are responsible for outbursts of smoke at the present plant," he said. "These problems will be eliminated at the proposed modern plant."

"The new plant was proposed only after careful and prolonged consultation with Laramore and Douglass, the city's consulting engineers who made a complete study of the city's steam heating plant problem."

Laramore and Douglass stated that the "start of a new plant at this time will be less expensive in the long run because practically all the equipment purchased for installation in the present plant can be utilized at the new location."

"The present plant is so limited in space available that it would be impossible to consider it except as a temporary expedient. The width of the present boiler room does not permit the proper installation of either coal or ash handling equipment. Neither is there sufficient space to install air heaters to secure the utmost boiler efficiency."

**Follow Definite Program**  
"It is located too close to the business section of the city, with insufficient space to permit any expansion. With a plant in the new location the expansion can follow a definite program so that there will be no installation of equipment except that which fits in with the long-range program."

City Manager Aronson's report follows in part:  
"In view of the increasing demand for central steam heat and the conditions prevailing in the operation of the existing plant, both from an engineering and an economic standpoint, it is entirely advisable that the investment necessary to put the existing plant in sound operational condition be used to develop a new plant of unlimited scope, with a life worthy of the investment."

"To properly present the background for the decision to build a new and modern steam plant, it is best to review the growth of the Escanaba municipal steam heating utility.  
"In the fall of 1939 the Escanaba municipal steam heating utility was created from the demand to share the benefits of a hand-fueled steam customers using surplus steam from the boiler in the municipal gas plant. The plant was built small and in accordance with what was then considered a normal rate of growth."

**Load Grew—Rapidly**  
"Through the following war years and post war years, with their adverse conditions in re-

placing old heating systems, the steam heating load grew rapidly to a present load of almost 80 customers and a total generation of almost 60,000,000 pounds of steam per year. The plight of this condition in its tax on the existing equipment was greatly realized, and Laramore and Douglass, Inc., were employed to engineer immediate improvements to cope with the increasing load. A new boiler, a smoke stack and various pieces of auxiliary equipment were ordered and hoped for an early remedy were in sight. Delay after delay was encountered, caused by the turmoil and shortages of recent years. The new boiler, for example, that was to be in service for the winter of 1945, arrived last spring, and with the complication of additional shortages, has little hope of seeing service for the coming heating season.

"This prolonged delay has more than ever presented the inadequacy of our existing equipment and the need for a new plant. The limited life of the existing plant has been greatly accentuated and if new equipment is to be installed, the common sense answer is to put it into a new building with unlimited possibilities for expansion. Also, it is desirable to install it under proper conditions that will guarantee combustion control and eliminate the eyesore of the existing steam plant smoke. To develop the existing plant could be little more than a temporary expedient, and five to ten years would again see the need for additional plant capacity and a new plant. To guarantee an equity for the investment for new equipment it is necessary to install it in a new plant where its entire life can be realized."

**To Use Old Plant**  
"The plan now is to erect a new plant, small in size, but with unlimited possibilities for expansion, on city-owned property between Third and Fourth streets at the foot of First Avenue North. It is to be developed with consideration for a main utilities administration center with hopes of eliminating the existing old structures. The existing steam plant is to serve as stand-by capacity and to operate in the summer for the purpose of doing maintenance on the new boiler for a period of two to four years, until definite need is established for additional new boilers. At this time the existing plant is to be turned over to the department of public works for its use as a maintenance shop, stock room, or a warehouse as it is then deemed most necessary."

"In view of the magnitude of the city's responsibility to its present customers, to guarantee continuous service throughout the winter, and the necessity to expand as rapidly as possible to offer the convenience and economy of central steam heat to more of the public, it is necessary that thought be given towards a new and adequate steam plant. The advantages of central steam heat are many, and if properly developed with a by-product of electric power it can serve advantageously, not only as an independent utility but as a stand-by power source for the water and gas utilities. The development and growth of the steam utility will be a slow but continuous process. However, with the proper fore-sight and development it will become a great

## Lions To Attend District Officers School On Sunday

A school of inspection for district officers of Lions clubs in the Upper Peninsula will be held at the Northland hotel in Marquette on Sunday, Sept. 21.

Donald MacDonald will be the general chairman of the meeting, and Joseph B. Gucky, Stephenson, district governor, will deliver the keynote address. In charge of the discussion groups will be District presidents, George Weingartner, Rock; district secretaries, George Graham, Lake Linden; program planning, Ben Grobaski, L'Anse; and Tailwister, Harry Burris, Saul, St. Marie.

A dinner meeting will be held at the Orchard club, at which Dr. William Blum of Marquette will deliver the principal address.

## Briefly Told

**Men's Brotherhood**—The Methodist Men's Brotherhood will meet at 6:30 next Monday evening in the First Methodist church parlors. Special music is being arranged as a feature of the program. Richard Morones, of Escanaba, author and traveler, will be the speaker.

**Bike Stolen**—Leo Plouff, 902 North 20th street, reported yesterday that his green and white bicycle was stolen from his parking space near the Delft theater Wednesday.

**Going to Germany**—William Gudewer of Powers will leave on the S. S. Queen Elizabeth from New York City on Oct. 3 for Hamburg, Germany, where he will visit relatives. He plans to return late in November.

Fifty years ago Sir Ronald Ross discovered that mosquitoes carried malaria parasites in their stomachs.

boon in making Escanaba a better place to live."

## ORE SHIPMENT TOTAL HIGHER

Considerable Improvement Noted Over Last Year

Ore shipments from the C. & N. W. docks in Escanaba totaled 2,719,391 tons to Sept. 1, the Lake Superior Iron Ore association has reported, as compared with 1,638,000 tons for a comparable period last year.

August shipments from the local docks totaled 573,477 tons, considerably higher than the 495,436 tons shipped in August of 1946.

Total shipments from upper lake ports this season to Sept. 1 were 51,014,783 tons, an increase of 51.7 per cent over a comparable period in 1946, when the ore season was delayed by strikes in the ore mines.

The ore shipping season from the upper lake ports will extend to late November. The shipment report for the

## LAND LEASED FOR INDUSTRY

Council Okchs One-year  
Grant To Chamber  
Committee

Providing for future business development in Escanaba, the city council last night authorized leasing a strip of land approximately 250 by 500 feet in North Escanaba to the industrial committee of the Chamber of Commerce for industrial use.

The strip is on US-2 east of the Fairgrounds between Tenth and Eleventh avenues and 20th and 21st streets. The lease is for one year.

Sanitary sewer assessments in Block 41, L. S. company, second addition, the sewage plant block in City addition No. 1 and in the Goulais addition were approved. Action on installation of water mains in the Goulais addition was deferred.

Henry Dahm was granted permission to build a 20 by 20-foot ice house on the shoreline at 1225 Lake Shore Drive with the provision that use of the lot for commercial purposes be terminated if and when Dahm should sell.

Mrs. Charles Mulloy was given permission to construct an upstairs apartment at her dwelling at 621 South 14th street.

War veterans appeared before the council to request information regarding what could be done to improve their dwellings at the Federal Housing Project in South Escanaba.

Flooring, doors and windows were described as being wholly unsatisfactory. They were told to confer with John Erickson, local housing authority.

## Action On Milk Problem Again Delayed; Special Meeting Will Be Called

Action on the request of the Delta Provision company to sell milk in Escanaba obtained from the Luick Dairy company of Milwaukee, which would necessitate revising the existing city milk ordinance or adopting a new one, was deferred by the city council last night until a special meeting at a date to be announced later.

The main point at issue in the milk question, discussed at length last night with both sides presenting their views — representatives of the Delta Provision company and local milk dealers, is whether the city should or should not require pasteurization of milk within a certain radius of Escanaba.

Expressing the opinion that the present ordinance is "unconstitutional" in that it prevents the Delta Provision company from bringing milk here for sale, Harlan Yelland, Escanaba attorney, representing the company, said the ordinance should be rectified.

**Lied Expresses Views**  
Basing his argument on the contention that free competition should be permitted, Wilkie Zimmers, Milwaukee attorney for the Luick Dairy company, pointed out that a milk ordinance similar to the one in Milwaukee was declared unconstitutional in Cudahy, Wis.

The Milwaukee ordinance, which requires pasteurization within the city limits of Milwaukee, was adopted long before the Luick firm was organized, he pointed out.

Mayor Marvin L. Coon declared

that "what the council is primarily interested in is assuring good sanitary milk for the people of Escanaba."

Speaking in defense of local milk dealers, Walter Lied, Escanaba dealer, said the city should protect small business and pointed out that the dairy industry is worth \$500,000 annually to Delta county.

"We cannot compete with national organizations," he declared. "On a large production basis, their costs are small, and naturally we can't compete with them."

"Why does this concern want to come up here?" Lied asked, declaring that his milk was better than that produced by Luick.

**To Draw Ordinance**  
Summing up the problem, Dudley Jewell, secretary of the Chamber of Commerce, said the "council is not primarily interested in keeping out the Milwaukee firm or in protecting local industry but rather in protecting the health of its citizens."

"Granting that Luick was a reputable firm with a high rated product, Jewell called attention to the danger of 'lowering the bars' which might permit other less reputable firms from bringing their products into Escanaba."

In answer to this, Attorney Yelland said high standards of milk could be required in any new milk ordinance drawn up.

The first of the councilmen to express a specific opinion on what should be done to solve the problem, Councilman Peter Logan declared that he was in favor of having the milk tested within a certain limit of Escanaba to assure the city of a safe milk supply.

Joseph L. Heirman, Delta county agricultural agent, cautioned the council to give the matter careful consideration before taking any action, which, it had been expressed previously, was exactly what the city's governing body intended to do.

Upon the mayor's suggestion, it was agreed to table the matter until a special meeting, and, at the suggestion of City Manager A. V. Aronson, it was further agreed that a proposed ordinance be drawn up by the city attorney prior to the special session.

Palestine is proportionately the most populated area in the Middle East. The Holy Land has 142 persons per square mile, as compared to 44 for the United States, 190 for Europe and 500 for the United Kingdom.

Potatoes are a cheap source of essential vitamins and minerals, beside shaving high caloric value in starch.

The wedding celebrators were not entirely to blame, it was pointed out, but the consensus is they had a lot to do with the ordinance being adopted.

As one councilman remarked: "We had as many as 12 wedding

jaunts up Ludington street one Saturday afternoon."

## Ludington Street Wedding Rides, Other Disturbances Banned By New Ordinance

Fixing penalties for violation up to a \$25 fine and imprisonment for 25 days for a fourth offense, the city council last night approved an ordinance making it unlawful to create any unreasonably loud, disturbing and unnecessary noise in the city of Escanaba.

Aimed primarily at eliminating loud and raucous wedding jaunts up and down Ludington street, which, it was pointed out, have been a nuisance for some time, the anti-noise ordinance banned honking of klaxons or horns on automobiles or any other motor vehicles other than as a traffic danger signal.

The council expressed itself as being in sympathy with newlyweds who would sound their automobile horns a "time or two" on making their exits from the city but emphasized that the Ludington street wedding parade would have to stop.

**Taboo List Is Long**

Also banned—the ordinance to be effective upon its second reading at the next meeting—was the "playing of any radio, phonograph or any musical instrument in such a manner or with such volume as to unreasonably annoy or disturb the quiet, comfort or repose of persons in any dwelling, hotel, or any other type of residence."

The ordinance requirements are far flung. Also on the taboo list are bird squawks, animal howls and the use of any automobile "so loaded or in such manner as to create loud and unnecessary grating, grinding, rattling or other noise."

The list doesn't stop there. Loud steam whistles, muffledless exhausts and the "use of any mechanical device operated by compressed air" are included.

Also included is the making of any loud noise by crying, calling, shouting, whistling or by any means with rattle, bell, gong, clapper, horn, hammer, drum, musical instrument or other sound devices "for the purpose of commercial advertising or attraction attention or inviting patronage of any business except that "news-

boys may sell newspapers and magazines by a public outcry in a reasonable manner."

**'12 Wedding Jaunts'**

Mechanical loud speakers or amplifiers may be used for advertising or other purposes only by permission by the city manager.

In case you are thinking that Escanaba is suddenly to become deathly quiet, you may allay your fears. The ordinance provides for special occasions, such as parades, ceremonies or musical performances, and the manager is authorized to suspend any provision of the ordinance for a holiday celebration or an emergency.

The wedding celebrators were not entirely to blame, it was pointed out, but the consensus is they had a lot to do with the ordinance being adopted.

As one councilman remarked: "We had as many as 12 wedding

## Communists in CIO

ACCORDING to the constitution of the Committee for Industrial Organization, the CIO labor group, no Communist is eligible to hold office in the international union or in any local union affiliated with the CIO. Actually the CIO is heavily staffed with Communist sympathizers and every effort of the right wing group to kick out the Reds has been blocked.

President Walter Reuther of the CIO United Auto Workers pointed to this condition in his annual report on UAW membership published this week in the official union publication, and he laid the blame directly on the CIO international executive board.

Reuther charged that the international executive board, meeting in Detroit last April 18, blocked enforcement of the non-Communist section of the international constitution and that as a result Communists are still holding positions of authority in the CIO unions, including locals affiliated with Reuther's own UAW.

This condition is of particular importance now because of the Taft-Hartley act, which prohibits use of facilities of the National Labor Relations Board to unions whose officers are Communists.

Paradoxically, the non-Communist provision of the CIO constitution was written at the insistence of John L. Lewis, who conceived and reared the CIO in its early days, but Lewis, who has never permitted Communists in official positions of the United Mine Workers union, did not take a firm stand against the infiltration of Communist leadership in other unions of the CIO. Lewis worked with the Communists as a matter of expediency. Now Lewis is giving further comfort to the Communist element by his refusal to sign the non-Communist affidavit required by the Taft-Hartley act. As a result Lewis has put the AFL, to which he now belongs after deserting the CIO, in the same legal stew in which the CIO is finding itself because of the adoption of the Taft-Hartley labor act.

Unless the NLRB reverses its present policy, which is unlikely in view of congressional sentiment and intent, neither the AFL nor the CIO will be able to use NLRB facilities without first divesting themselves of officials who decline to sign non-Communist affidavits.

## Revision of UN

SECRETARY MARSHALL placed his finger directly on the weakness of the United Nations in his address before the assembly Wednesday, at which he advocated revision of the charter and restriction of the veto to matters concerning threats of war.

The chief of the American delegation tossed a bombshell into the assembly with a proposal that an interim committee on peace and security, composed of a representative of every nation, be created to maintain vigilance over world peace. Such a committee, as envisioned by Marshall, would in reality be a supplemental agency to the UN security council, which has been all but wrecked by the Soviet abuse of the veto authority.

Whether the United Nations assembly will act to solve some of the most pressing international problems stymied by Russian objections in the security council will probably be indicated by what action is taken on Marshall's demand for creation of a UN commission to investigate the Balkan situation.

Every effort for solution of the Balkan crisis has been blocked by Russian veto in the United Nations security council. In the meantime Communist bands, directed by Moscow, have continued to fan the flames of armed revolt in Northern Greece.

The United States has been successful in the first phase of its fight on the Balkan question by gaining a 12-2 decision by the UN steering committee to put the Greek question on the agenda of the United Nations assembly at its present session.

The Marshall recommendation for revision of the veto authority apparently came as a surprise to the Russian delegation inasmuch as the five great powers have consistently defended the principle of unanimity.

It was never conceived, however, that the veto authority would be used in any situations except in the most serious matters involving the threat of war. Russia has used the veto abusively to block every and any proposal which the Soviet delegates oppose.

## Fascism and Communism

THE Library of Congress at Washington, D. C., has prepared an easily readable book on "Fascism in Action."

We have carried on the greatest war in the world's history against Fascism and its twin, Nazism. We have incurred a million casualties and have spent over \$100

billion dollars in this struggle, and yet comparatively few Americans know what Fascism is or how it works. The book is a careful analysis of Fascism abroad. It is divided into political, social and economic phases, and it has an excellent foreword by Congressman Wright Patman.

Another book available to the American public is "Communism in Action," which your congressman or senator can get for you. When you have read these books, go to your public library and get Marquis Childs' new book, "Sweden — The Middle Way," and compare the fine results its sets forth with what Fascism, Nazism and Communism have been doing and trying to do. Sweden has gone neither right nor left, but is making remarkable progress through the use of democratic processes to solve its problems.

Here are three publications that are opening the eyes of many Americans to what has been going on in Europe for decades. They enable us to get a better perspective of European conditions, and to learn what has been going on over there.

Too many folks are reluctant to read books on radical ideologies because they are afraid their friends will get the mistaken notion that they have "pinkish" leanings. We cannot afford to adopt an ostrich-like attitude concerning such things. We must learn what Communism and Fascism are in order to identify such un-American tendencies here. Such knowledge is valuable, too, in preventing us from making the mistake of labeling as "pinks" those folks who do not agree with us.

## Blighted City Areas

SPEAKING at a recent conference in Washington, Paul L. McCord, president of the Indianapolis Redevelopment commission, made some comments on the problems of blighted city areas that might well be heeded in a city like Escanaba.

In a sense, urban blight is a part of the price we pay for progress, Mr. McCord said. It usually results either directly, by the gradual infiltration of business or industrial activity into a residential area, or indirectly from increases in smoke, noise, traffic congestion, parking difficulties, and other factors which depreciate the livability of such areas. If this blight is permitted to spread unchecked, it could ultimately threaten the financial stability of the community.

The individual property-owner is powerless to rehabilitate a blighted area. What is needed is a unified program involving an entire area large enough to preserve and protect its gains through proper planning and proper zoning. Because of the obvious difficulty of getting unanimous agreement upon a course of action among many owners, it is generally conceded that some exercise of the power of eminent domain is necessary.

Mr. McCord also pointed out that we must be careful to distinguish between the redevelopment problem and the housing problem. The two are by no means the same, although they may exist side by side in the same community. When a slum area is cleared, the land thus made available should be earmarked for its highest and best use. This may be for residential purposes, true, but under normal conditions redevelopment will often call for some quite different use—industrial or commercial development, transportation facilities, parks, or other public or private facilities.

Escanaba is now enjoying a sizable boom in residential and commercial building, along with the fortunate development of new industries. In our eagerness to provide new housing, we must not overlook the need for modern construction codes and community zoning. Helter-skelter residential and commercial building now may create conditions that we may deeply regret in the future when we realize we have sowed the seeds for blighted areas.

If it weren't for the alarm clock, to what would a lot of men attribute their start in life?

A good sign of lightness is a loose tongue.

Only 60 freshmen can be admitted to a Kentucky dental school when the fall season opens, but 1200 have made application. And pull will do them no good!

Meat is sold in a Texas drugstore. At last the drugstores cowboy comes into his own.

## Take My Word For It

Frank Colby

### WHAT IS THE ORIGIN?

(Scrapbook Item)

Q. Common usage favors "all told" in such sentences as "there were 150 members present, all told." I am of the opinion that the correct phrase should be "all tolled." What is your verdict on this?—C. L. S.

A. I'm sorry that I must disapprove of "all tolled."

That "all told" is the correct expression is seen by looking into the origin of the word tell. It is from the Anglo-Saxon tellen, meaning "to count." Therefore, "all told" means "all counted."

This old meaning of the verb to tell is still used in banking, for a teller is primarily a counter of money. Also, among Roman Catholics, it is customary to "tell" (count) one's beads (of the rosary).

Tell for "count" is often seen in the Bible and in Shakespeare: "He telleth (counteth) the number of the stars."—Psalms. "While one with moderate haste might tell (count) a hundred."—Hamlet.

Now let us look at "all tolled." There are two "tolls" in English: (1) a tax; (2) to draw or pull. Hence, we speak of a toll bridge, a toll road, a tollgate, etc. We also speak of the tolling of a bell, that is, the striking of a bell by means of pulling on the rope.

In neither of these "tolls" is there any meaning that could be applied to "all tolled." Therefore, "tolled" is an incor-

## World Events Analyzed

BY MARQUIS CHILDS

Athens, Greece—Reports of troop movements in the north, coupled with rumors of an armed uprising in Athens, this past summer sent the rich of the city scurrying to the waterfront to buy their way out of the country. They paid 50 gold sovereigns—\$1500 in American money at the legal rate—for an option on a seat in a sailing vessel. They agreed, if they took up the option, to pay an additional 150 sovereigns. This, mind you, for merely a place to sit in a small boat that would presumably make Turkey or Egypt.

This is the measure of the fear and uncertainty that hang like a cloud over troubled Greece. It's estimated a billion dollars of Greek capital is in safe haven abroad, and American Aid Director Dwight Griswold frankly admits he's not sure any way can be found to compel the owners of the money to return it to Greece. It's just here that Griswold and his staff come up against their greatest single handicap—that deadline on June 30, 1948. Informed Greeks know as well as do the Americans here that, unless congress takes further action, the paid program will be wound up after that date.

### —"BREADLINE WITH GUNS"—

Greeks keep telling themselves it can't possibly happen. And most Americans feel that only the smallest beginning will have been made by that time. Yet the date of June 30, now only nine months away, stares everyone in the face.

Talking about the deadline and what it means, a member of the aid-mission staff, with two years experience in Greece, described the program sardonically as a "breadline with guns." He was in a pessimistic mood. It's more than that, of course. But Americans here and at home should understand the very narrow limits of what is being undertaken.

The total sum to be spent or committed before June 30 is \$350,000,000. During 1945 and 1946, about \$800,000,000 was spent on Greek relief by UNRRA and other agencies. Granted that some of this was badly misspent. Granted that it brought some improvement in the health and well-being of the Greeks. No one could argue, however, that spending \$400,000,000 annually has checked deterioration and started the nation back to something like a normal existence.

This can happen only when the Greeks themselves begin to believe in the stability of their country. In the view of those with experience here, only a long-term agreement for three, four or five years can bring that about. That kind of commitment, signed and sealed by congress, would start a current of confidence. It would begin to bring about investment of Greek money by Greeks in Greece. Perhaps as much as \$75,000,000 a year in capital investment would be forthcoming the first year or two. That is a sizable sum for Greece.

Of the \$300,000,000 mission budget—the additional \$50,000,000 comes from the European relief fund—roughly half was committed to rehabilitation and reconstruction. That may be cut down in response to pressure for a larger allocation to the military. Compared with the needs of a country broken by war and revolution, it's ridiculously small.

### —WILL REBUILD ROADS—

A considerable part will go for rebuilding roads and restoring destroyed dock facilities at Piraeus. Road construction will be useful because it will give jobs. But so far as getting the economy of Greece started again is concerned, it must be rated at WPA level or even below it.

There are small hopeful portents, and Americans snatch at them. On the main highway leading to the Corinth canal, the Greeks themselves have improvised a kind of voluntary system of road-mending. But again measured by need, even the original road-building program, now just in the beginning stages, is pathetically small. The highway and railroad system is almost completely smashed. The desperate lack of transportation is one reason for high prices and the black market.

"Greece is bleeding from deep wounds hardly apparent to the visitor, who sees only the noisy bustle of Athens," That was said by a Greek who has lived, and lived heroically, through the Greek tragedy of the past twelve years.

He was speaking of the bitterness and bloodshed of the Civil war in the north. It applies equally well to the economy. The economic life-blood of Greece has been all but drained away. The American program can perhaps staunch the flow and thereby stave off bankruptcy. The real need is for a series of major economic transfusions, and they are beyond the capacity of the present aid program.

rect form.

Q. My friend and I do not agree on the meaning of "mediocre." Is he right in holding that it means "average in quality or ability"?—H. J. M.

A. As the word is used today, it means "indifferent; second-rate; poor; below average." We borrowed the word from the French who pronounce it: may-dee-AW-krub. The English pronunciation is: MEE-dee-OH-ker.

Mediocre entered French from the Latin mediocris, "in a middle state between too much and too little." However, this is really a figurative meaning, for mediocris is formed from medius, "middle," plus ocris, "a broken, rugged, stony mountain." Strictly speaking, then, a mediocre person is one who is halfway up a mountain. It's hard to believe, but it's true.

Mr. Colby's leaflet, C-2, "Have got—Have gotten," explains the proper use of these phrases. To obtain a copy, send 3 cents in coin and a stamped, self-addressed envelope to him, care of this paper, P. O. Box 99, Station G, New York 19, N. Y.

## The Class in Problem Children Gets Promoted

## Good Morning!

By The Bugler

HARVEST SEASON—This is the season of harvest when the bough bends heavy with fruit toward the nurturing earth and the nip of frost in the air at night blackens the tops of the maturing potatoes.

It is also the season when housewives can appreciate and wonder whether potatoes will follow the fantastic spiral of other food prices. Fortunate is the man with a backyard garden out of it will come a small and inflated fortune in fruits and vegetables. The man or woman who continued the wartime-born habit of planting a garden can well afford a feeling of inner satisfaction, both in watching the garden grow and produce, and in filling his stomach to a comfortable and economical degree this coming winter.

THE NEED REMAINS—There are familiar headlines in the newspapers again. High food prices are being blamed on food scarcities. We are eating too much, we are sending too much to the starving in other countries, we are not producing enough food. A wheat scarcity threatens and distillers may get less grain for whiskey making. To conserve wheat millers may go back to the wartime practice of turning out "gray" flour.

It has a familiar ring. Turn time back two or three years and, except for the actual conflict of war itself, the food situation is about the same. Then we were not only exporting some food to aid our starving allies but were feeding an overseas Army. Big difference between then and now is high prices.

The housewife is busy these days putting up (or is it down?) cans of food that will mean a material saving in the household budget in the months ahead. Her family will be better fed on a more balanced diet—if the family is in that twilight budget zone described as "the low income group."

THE CANNING KITCHEN—The modern kitchen with all the equipment necessary for mass production is often as sterile of cooking odors as a hospital waiting room. Too many gadget kitchens in model homes have never known the redolent spice of bread and butter pickles or the sweet fragrance of peaches ready for the can.

The old-fashioned kitchen may have been a place of drudgery and wasted steps, but it was also a place of friendly warmth and the smell of bubbling applebutter. When grandmother canned hundreds of quarts of vegetables and fruits she did not think particularly of the saving to the family budget. Her first consideration was to feed her family.

There was only one way to provide for the winter ahead and that was to fill the cellar with home-canned foods. At that time the can opener had not yet become the great American key to everything from canned beans to beef stew, and there were no fresh-frozen chicken dinners ready to warm up for the table.

AMONG THE VIRTUES—We were told during the war that to waste food was to be unpatriotic. Clean Plate Clubs were formed to encourage food-saving. Victory Gardens were the order of the day.

## INTO THE PAST

10 Years Ago

Washington—President Roosevelt renewed his fight for a rejuvenated supreme court tonight with a warning that until social reform is instituted the nation is threatened by dictatorship.

New York—Tammany's old guard was left gasping tonight under an avalanche of votes that pushed both major parties behind pro-Roosevelt candidates for mayoralty election.

Rapid River—The title to property purchased by Calvary Lutheran church of Rapid River has been cleared and work will begin on the structure shortly.

Manistique—Work of pouring concrete for the new State Police Post here was started yesterday by a WPA crew.

20 Years Ago

Indianapolis—Indiana's political war broke forth anew today with the Anti-Saloon League superintendent and Congressional men disagreeing over whether an attempt was made to influence Supreme Court action in the Shumaker contempt case.

Washington—Economic warfare with Europe, which has for some time been threatening, and which many refused to believe, became an established fact today. The attitude of Britain in raising her tariff and insisting upon U.S. reciprocity is only a symptom of what may happen with other countries.

day, and hands that had never before touched anything stickier than cold cream plunged into the intricate mystery of making eggless-sugarless cake. Used fat was carefully saved and utilized in cooking or hoarded and returned to dealers. During the soap shortage newspapers printed old-fashioned soap-making recipes requested by women readers.

It seemed that the self-reliant spirit of American pioneers had returned to regenerate respect for the fundamental virtues of thrift, hard work, and ingenuity.

THE CAREFUL YEARS—It is our observation and that of other folks that for the majority of American people wartime proved a boon to their bank accounts. Wages were high and living costs were low. Savings in bonds and cash accumulated.

When the war ended people started buying—homes, cars, clothes, furniture. The little economies and saving practices were abandoned. Now income and outgo are both higher than they ever were before and where it will end is anybody's guess. There's a lot of guessing, too. So-called authorities predict everything from prosperity and stabilization at high levels to boom and bust. It all depends on who you read.

It is our contention, stated before, that it is people who make conditions, and not conditions that control people. Sometimes the condition is achieved by a minority, sometimes by a majority of the people, but it always affects all of the people.

In the current condition of high prices the majority of our people can, if they wish, refrain from buying anything but essentials and thus help keep prices down on certain items. On the list food is the No. 1 essential and the only economy is to avoid purchase of luxuries. Staple items must be bought because it is still an obvious fact that you must eat.

IT'S BEING DONE—The thrifty housewife—and most of them are—turns to canning in an effort to cut food cost corners. Since this is the harvest season the kitchen production line is now in full swing. Pressure canners and other canning equip-

## Q&A Service

By WS Bureau

### YOUR INFORMATION SERVICE

What do you want to know? We will answer questions on any subject not involving extended research. Legal or medical advice cannot be given. Write your question clearly, sign your name and address, and (IMPORTANT) Mail this Coupon and a 3-cent stamped, self-addressed envelope to Daily Press Service Bureau, 1217 Thirteenth St., Washington 5, D. C., for a personal reply. Don't telephone: write as directed.

Q. Are the Kabyles another Mohammedan sect?

A. No. Kabyles is another name for Berbers, a tribe that lives in the mountains of Algeria and Morocco. They are neither Arabs, Moors, nor Turks, and live in villages called "gourbis." Several "gourbis" would constitute a kabyle (county). Their government is somewhat similar to that of Switzerland, a democratic confederation. They are sober, brave and hospitable, but also vindictive and superstitious.

Q. The legs of chairs make indentations in my new rug. Can you tell me how to restore the original level of the rug?

A. By steaming and repeated brushing. However, it is difficult for one to do it at home. It may have to be sent to a rug dealer. It is best, as a preventative measure, to move the chairs slightly each day to prevent making a deep indentation in one place.

Q. If increased compensation is authorized for a veteran, are payments retroactive to the date of the original award?

A. If the increase in compensation was based on new and material evidence submitted to the Veterans Administration Regional Office, the effective date of the increase is the date of the award. However, if on the basis of the revised schedule for rating disability, the Veterans Administration Regional Office increased the compensation, such increase is retroactive to April 1, 1946.

Q. Are there any instances of perpetual motion in nature?

A. Yes. The various planetary bodies belonging to the solar system have been moving for ages with undiminished velocity and, unless prevented by the factors which govern all nature, will continue to move in the same manner for ages to come.

### HOUSE PLANTS

A 24-page booklet containing names of plants especially adapted to indoor culture, with full directions about planting, cultivation and care; also SEALING WAX CRAFT AND WAX FLOWERS, a 4,000 word bulletin describing methods for painting, enameling and modeling with sealing wax and making wax flowers, now available. To obtain both copies send this clipping with 10 cents to cover handling and mailing costs to Daily Press Service Bureau, 1217 13th St., N.W., Washington 5, D.C. Write your name and address plainly.

ment demands the use of heat to process the foods inside the cans. On Monday, Sept. 15, in Escanaba the consumption of city gas reached an all-time high for any 24-hour period. The majority of the gas customers are residential, and most of the gas is consumed in kitchen stoves and water heaters. What with the canning going on and the consumption of gas to heat water for Monday's wash, the total gas used was 299,000 cubic feet—topping the previous high by 28,000 cubic feet.

—Clint Dunathan.

## The Washington Merry-Go-Round

BY DREW PEARSON

Washington—Don't be fooled by all the hurrah, hullabaloo and headlines now coming out of the justice department's anti-trust division. Actually, the rash of anti-trust suits now splashed across the front

pages don't mean much. Most of them were prepared two years ago by abler, more energetic Wendell Berge, predecessor of the new anti-trust chief, John Sonnett.

Take, for instance, indictment of real estate boards. Fourteen months ago, this same suit was recommended to Attorney General Tom Clark by Berge, but Clark vetoed it.

Tangling with the real estate boys at that time wasn't popular.

Now that President Truman has thrown the harpoon into the real estate lobby, however, the justice department has dusted off Berge's 14-month-old case and brought an indictment.

Even so, the indictment doesn't mean too much. For present anti-trust division chair-warmers pulled punches. They indicted no individual real estate men, only the real estate boards, and you can't send a board of corporation to jail. That's why real estate moguls aren't really worried.

Other recent cases pulled out of the Berge hat are Eastman technicolor, prepared 18 months ago, and the tire price-fixing conspiracy, prepared two years ago. Another important case—still not out of the hat—is against Wall Street's investment bankers. This case was all set to go when Wendell Berge resigned, but six months have dragged by with nothing happening.

### —CHIEF DUSTER SONNET—

The man who has been dusting off old Berge cases and doling them up with flashy headlines is amiable, uninspired John Sonnett—the only man who ever licked John L. Lewis but got no credit for it. Sonnett, who dresses like a poem—but doesn't act like one—handled the supreme court injunction against Lewis and eventually expects to go up to Wall Street. There he has been promised a legal job representing Jim Forrestal's old banking firm, Dillon, Read.

During the war, poem-dressing Sonnett was aide to Secretary of Navy Forrestal, which makes it just a bit embarrassing to bring the long-delayed anti-trust suit against Forrestal's and other Wall Street firms. In addition John Cahill, under whom Sonnett once worked, is now defending Dillon, Read.

So life is no bed of forget-me-nots for Johnny Sonnett. Nevertheless, he swears he'll prosecute his old Wall Street friends—and perhaps he will.

### —GOP PUBLICITY SEARCH—

The Republican National committee isn't shouting it from the house-tops, but, looking round for a high-powered new publicity man, it finally approached Hal Leshom, executive editor of Jim Cox's Miami News, offered him \$25,000.

Flattered, but amused, Leshom replied:

"I suppose you realize that I work for Governor Cox, who was Democratic candidate for president in 1920. Also I am a close friend of your effective critic, Senator Pepper. In addition, you would discover, if I took the job, that during the war, I was executive officer to Col. Jack Redding, publicity chief of the Democratic National committee."

The Republicans decided to look for somebody else.

### —MERRY-GO-ROUND—

New war production board—Industrious Averell Harriman, the secretary of commerce who is reversing his father's role of Wall Street highbinder, is quietly working on new kinks for the Marshall plan. It's the most ambitious and could be the most effective step to pep up Europe. . . . Harriman argues that Europeans aren't helping themselves: Ruhr coal is bogging down; French industry is flat on its face. So he would recruit about 5,000 U. S. experts to work with Europeans showing them American techniques, giving them efficiency hypodermics, allocating raw materials where needed. . . . At present, much U. S. material sent to Europe gets into wrong channels, is wantonly wasted. First thing the Greek government did with U. S. \$\$\$ from the Truman plan was to buy a big consignment of fancy neckties. . . . Officials admit the Harriman "European Production Board" will be tough to put across, but no tougher than the present mess.

Negro to Annapolis—First senator ever to appoint a Negro to Annapolis is 80-year-old Democratic Theodore Francis Green, Rhode Island millionaire, and blue-stocking. He has picked 18-year-old Reeves Taylor of Providence, a runner-up for the naval academy exams last year, who came out ahead of any other candidate this year. First to congratulate him was John Nicholas Brown, assistant secretary of the navy, and like Green, descendant of one of New England's oldest families. . . . Several representatives have named Negroes to Annapolis but none has graduated.

Ironical Fact—If it hadn't been for the disagreeable persistence of Australia's Herbert Evatt in bucking the United States when we wrote the UN charter at San Francisco, the United Nations would not be helping the United States re-Greece today. It was Evatt who howled, yelled and banged his fists until he modified the veto—almost over the dead bodies of Stettinius, Vandenberg, Connally et al. . . . Thanks to Evatt, the UN general assembly is now able to consider Greece unbothered by Mr. "Gro-veto."

The number of races won by a nose should teach us to keep our heads up!

Prisons are never too crowded for inmates to do a long stretch.

Still waters run deep—and leave it to the federal men to find their source.

## Karl Detzer Pays Visit To Carney To Write Article

Karl Detzer, roving editor of the Reader's Digest, and Mrs. Detzer, left Escanaba yesterday for their home in Leland, lower Michigan, after a visit to the Carney public school, where Mr. Detzer collected some information for an article on rural education. He interviewed Fred Vescolani, superintendent, concerning unique methods used in the training of Carney students. Detzer travels all over the country gathering material for Reader's Digest articles. During the recent war, he served as a "trouble shooter" with the Army Service of Supply, and made a number of trips to Africa, Germany, England, China, Burma and other war theaters. In World War I he was a captain in the division of criminal investigation in Europe.

Detzer began newspapering with the Fort Wayne Journal-Gazette back in 1909. In the early thirties, he was employed as a writer with the Hollywood film studios.

He is the author of several books, True Tales of the D. C. L., The Marked Man, Pirate of the Pine Lands and others. His Car 99, a story of the Michigan State Police, was made into a movie.

Many of Detzer's short stories have appeared in the Saturday Evening Post, Collier's, Liberty, American and other magazines.

## Legislators On Peninsula Trip

Marquette, Mich.—Three members of the state legislature and their wives, visiting Rep. and Mrs. Alvin E. Richards, 415 High street, for two days, were "very much impressed" with the points of interest in and near Marquette.

They were Senator and Mrs. William C. Vandenberg, Holland; Rep. and Mrs. John Karel, Grand Rapids, and Rep. and Mrs. Edward L. Baker Detroit. The Karels will return home today; the others left Thursday.

The group was taken on a tour of the Marquette prison, the Northern Michigan College of Education and other places of interest. Rep. Baker, who is on the ways and means committee of the House, is very interested in the prison and college.

Roots of some species of the yucca plant contain a substance similar to soap.

## Obituary

**THOMAS T. BOVINE**  
Final rites for Thomas T. Bovine will be held at 2 o'clock this afternoon in the chapel of the Anderson funeral home, with Rev. James G. Ward officiating. Burial will be in Holy Cross cemetery.

**JAMES D. MITCHELL**  
The body of James D. Mitchell, who died Wednesday, will be in state at the Anderson funeral home at 3:30 o'clock this afternoon. Funeral services will be held at the funeral home chapel at 2 o'clock Saturday afternoon and burial will be in the family lot in Park cemetery in Iron Mountain.

The services will be conducted by Rev. James G. Ward, of St. Stephen's Episcopal church.

**MRS. CHARLES F. GLAVIN**  
Funeral services for Mrs. Charles F. Glavin were held at 9 o'clock Thursday morning at St. Patrick's church. Rev. Fr. Thomas Ruppe offered the requiem high mass. Burial was in Holy Cross cemetery.

Pallbearers were Stack Smith, William Shepeck, Joseph and Henry Lauerman, of Marinette, John Coleman Walch, and Warren Cleary.

Those attending the services included Mr. and Mrs. Clark Glavin, of Pelham, N. Y.; Mr. and Mrs. George St. Peter, Fond du Lac, Wis.; Mrs. John Shaughnessy, Dallas, Tex.; Mrs. Nellie Clarke and Mrs. Harry French, Milwaukee; Mr. and Mrs. Joseph Lauerman and Mr. and Mrs. Henry Lauerman, Marinette; Mr. and Mrs. F. X. St. Peter, Mr. and Mrs. Jean Worth and John St. Peter, Menominee; and Mr. and Mrs. John P. McGalloway, Fond du Lac.

**ALEX SERVANT**  
The body of Alex Servant, who died Wednesday following a long illness, is in state at the Boyce funeral home. Funeral services will be held at 9 o'clock Saturday morning at St. Patrick's church, Rev. Fr. Clement LePine officiating at the rites, and burial will be in Holy Cross cemetery. The rosary will be recited at the funeral home at 8 o'clock this evening.

In addition to those listed, the surviving members of the family include a daughter, Miss Mary Ellen Servant, of Escanaba.

When Wyoming entered the Union in 1890 it granted votes for women for the first time in U. S. history.

For easy mincing of onions, nuts, etc. 12-oz. graduated glass; wood chopping block!

**SALE-PRICED! SOCKET SET 88<sup>c</sup>**  
A tiny set that covers many car-repair jobs! Six sockets from 3/8" to 7/8", "L"-handle.

INQUIRE ABOUT USING WARDS TIME PAYMENT PLAN

## Fewer Ducks, More Guns, Bring New Restrictions

There were more than one and one-half million duck hunters in the nation last year, and over 100,000 of these were in Michigan. The number is expected to increase again this year—and all of the hunters will have more ammunition. That the shells will be higher in cost is not expected to make much difference to the duck-in-the-wool duck hunter.

Suppose we take a look at the duck's side of the picture for a moment. The number of ducks hit their lowest slump that started back in the early 1930's and continued for a decade. Restrictions on the protection of the nation's duck population had to be invoked, and some of these were quite stringent compared with those of today.

By 1936 the shortage of ducks had become so acute that there was talk of certain species becoming extinct. Then the season was shortened still more and shooting was allowed only from a rather late hour in the morning to an early hour in the afternoon. Morning and evening shooting is, of course, the best time for the hunter.

Ducks made a comeback until 1945 and then another slump was noted. In 1946 the waterfowl

population continued the downward trend and hunting restrictions were tightened once more. The outlook for 1947 has changed little and, while the situation is not as critical as it was in the 1930's additional restrictions on hunting are considered necessary by conservationists.

For this year the gunning season has been shortened to 30 days, extending from Oct. 7 through Nov. 5, with the daily bag limit reduced from seven to four ducks and the possession limit to eight including one wood duck.

The daily bag limit for geese, as well as the possession limit will be reduced to four. This limit may include one Canada or one white-fronted goose.

Shooting hours for both waterfowl and marsh birds will be from the hour of sunrise to one hour before sunset, except that on the opening day (October 7) shooting may not start before 12 o'clock noon. Shooting time is thus shortened a half hour at each end of the day as compared to last year.

A review of the other restrictions for the taking of migratory birds follows:

1. Unlawful to shoot water-

fowl over baited areas.  
2. Unlawful to use live duck or goose decoys.

3. Unlawful to leave decoys set out at night in public waters.

4. Unlawful to take waterfowl by means, aid, or use of cattle, horses, or mules.

5. Unlawful to take migratory game birds from or by the aid of an automobile, airplane, sinkbox, (battery), power boat, any boat under sail, or any floating craft or device of any kind towed by power boat or sail power.

6. Unlawful to use any firearms other than shotgun or to use a shotgun larger than 10-gauge, or an automatic or hand operated shotgun capable of holding more than three shells, the magazine of which has not been cut off or plugged with one-piece metal or wooden filler incapable of removal through the loading end.

7. Unlawful to have migratory game birds in possession more than 30 days after the close of the season thereon. Exception—such birds may be kept an additional 60 days under permit issued by the Department of Conservation.

A federal regulation requires a person over 16 years of age to possess an unexpired federal migratory-bird hunting stamp, validated by his signature written across the face in ink.

A wedding isn't "official" among the Brahmans of India until perfumed rice has been thrown on the bride and groom.

### Seney

Seney, Mich.—Mrs. William Trask left last week for Powers where she will receive medical treatment at the sanatorium.

Mrs. Beatrice Hunt has returned to Detroit after visiting here with her mother, Mrs. Isa Van Sickle.

Mrs. Hazel Ball has returned to Battle Creek after visiting here with her sister and brother-in-law, Mr. and Mrs. E. Tovey.

Word was received of the birth of a son to Mr. and Mrs. Don

Wiertella at Detroit on Sept. 8. Mrs. Donald McDonald has returned home from the Newberry Clinic where she underwent a major operation.

Mr. and Mrs. Walt Neime and daughter Sally, left Sunday for Ohio where they will visit relatives. They were accompanied by Mr. and Mrs. Lawrence Brown of Newberry.

Glen Short was the highest bidder on the two school lots which were sold last week.

The Junior Cribbage Club had their first party Saturday night at the home of Bruce and Avis McArthur. First prizes were won

by Margaret Tull and Jimmie Boggs and second by Peggy Riordan and Bobby Purple.

Those attending were Avis and Bruce McArthur, Mark and Sue Ketola, Jimmie and Garnet Boggs, Mary Ann Pelkie, Peggy Riordan, Margaret Tull and Bobby Purple.

The Seney school children are being taken to Grand Marais this week for dental work.

Sid McArthur and Pearl Smith have been called for jury duty at Manistique next week.

Bananas grow on a tall plant, which really is an overgrown herb.

### Nahma

**Church Services**  
Nahma, Mich.—St. Andrews Catholic church—Confessions on Saturday evening at 7. Sept. 21, Masses at 6:30 and 10:30.—Rev. Jerome Larson, pastor.

**Lions Meeting**  
Members of the Nahma Lions club will meet on Thursday evening at the club house. Another party will be held on Sunday evening in the old store building. The public is invited.

### Personals

Guests at Menary's on Sunday were: Mr. and Mrs. Claude O'Neill Sr. and Mr. and Mrs. Claude O'Neill Jr. and family of Manistique.

Robert and Jack Hruska and Robert Thibault left this week for Kalamazoo where they will attend Western State Teachers College.

### Bark River

Carl Farrows has returned to Chicago after visiting the Louis Wangles for a week.

# SCHOOLS GIVEN \$120,645 FUND

## Primary Interest Money Distributed To Delta County Districts

School districts of the townships and cities in Delta county are receiving a total of \$120,645.96 in primary school interest money received from the state and distributed through the office of the county treasurer.

Checks to the various districts were mailed yesterday as follows: Townships—Baldwin \$3,238.32; Bark River \$10,036.32; Bay de Noc \$1,606.70; Brampton \$1,928.16; Cornell \$1,989.96; Ensign \$1,804.56; Escanaba \$4,190.04; Fairbanks \$2,014.68; Ford River \$2,941.68; Garden \$2,818.08; Maple Ridge \$5,883.36; Masonville \$3,757.44; Nahma \$4,906.92; Wells \$8,627.28.

Cities—Escanaba \$48,352.32; Gladstone \$16,550.04.

## Committee Starts Two-Day Tour Of Delta County Roads

The roads and bridges committee of the Delta county board of supervisors today will start a two-day tour of inspection of county roads and parks, accompanied by the road commission and J. T. Sharpsteen, superintendent-engineer. It is the first such tour since the end of the war.

The roads and bridges committee is composed of Supervisors Omer Tanguay, chairman, Bernhard Mattson, George Berg, H. W. Gasman, Allen Mercer and E. W. Carlson. The road commission is composed of Harry Greene of Garden, chairman, Hilding Norstrom of Gladstone and Henry Wylie of Escanaba. Wylie, member of the Escanaba school faculty, will not join the tour until Saturday.

Today the tour will go to Pioneer Trail Park for an inspection of the facilities there, through the Jaeger settlement, O. B. Fuller park, to the Bark River area, Schaffer, Escanaba, Wells township, and to Cornell, Baldwin, Brampton and Maple Ridge townships. They will have lunch in Escanaba.

Saturday the inspection tour, with particular emphasis on the condition of McNitt (former township) roads, will extend the eastern section of the county to the Garden peninsula and Fairport.

## Student Vets Need Not File Detailed Report Of Wages

Veterans studying full time in colleges and universities under the G. I. Bill no longer will have to make periodic reports of outside earnings, it was announced today by officials of the U. P. Veterans Administration office in Escanaba.

VA adopted the new policy nationwide after a survey showed that not more than one per cent of the veterans in full time college training reported any difference between their estimated earnings and actual income during a school year.

Veterans entering full-time training in institutions of higher learning under the G. I. Bill this fall will estimate their earnings from productive labor for the full period of their enrollment when they register. The amount of their subsistence allowances will be based on these estimates.

The rate of payment will be authorized for the full enrollment period certified to VA by the institutions and will remain unchanged unless subsequent evidence justifies an adjustment.

Previously, veterans estimated their earnings when they enrolled. They then were required to report their actual earnings once each semester.

## Music Instruments Sought By Schools

Escanaba schools are interested in securing more music instruments for the use of students, Supt. John A. Lemmer said yesterday. Both string and wind instruments are needed.

Interest in instrumental music is high among the students and persons who now have instruments are not in use are requested by the superintendent to telephone his office, No. 2121.

## Indian Says Iowa Has Richest Soil

Des Moines, Iowa, (AP)—M. S. Venkata Rama Rao, high agricultural official from Poona, India, who is visiting Iowa City, says the soil of Iowa seems to be the most fertile of any in American areas he has visited, but that fertility is a thing that can slip away easily.

Rao, who has seen in his native India what happens when the topsoil is lost, says that if farmers don't get busy in their farm conservation work it will be like "closing the stable after the horse is stolen."

Forty centuries of farming has taken away nearly all of the topsoil in India, says Rao, who has been studying soils in this country for nearly a year. Indian agricultural authorities, he says, facing frequent famine and dealing with sporadic rainfall on land worn down to sub-soil, consider moisture conservation a prime objective.

Nevada has less than one inhabitant per square mile; population 110,247, area 110,090.

**VISITS HERE**—Dr. T. V. Smith, professor of philosophy of the University of Chicago, visited here yesterday while enroute to Blaney Park, where he addressed the Michigan Library association convention banquet. Dr. Smith spoke at the Labor Day celebration in Escanaba in 1942. During the war, he served as an advisor to the Allied Military Government in Italy and Germany. He recently returned from a trip to Japan.

## Hardware Men Hold Zone Meeting Here

Hardware merchants and salesmen of the Delta-Menominee-Schoolcraft zone of the hardware men's association Wednesday night held a dinner meeting at the Dells with about 65 attending. Henry Boyle of Bark River, zone chairman, presided. The 1948 chairman, named at the meeting, is Abe Baum of Escanaba.

Harold W. Schumacher of Lansing, association manager; and J. W. Wilson of Traverse City, association president, attended the meeting. The hardware men were welcomed by Escanaba Mayor Marvin Coon. Principal speaker was H. D. Graham of Detroit, who is connected with the national association of hardware men. The subject of his talk was "Selling Our Michigan," and he described the state's wealth and advantages.

# GHOST TOWN HAS ONE MAN

## E. B. Robison Is Only Citizen Of Diamond City, Mont.

BY ARTHUR R. LEE AP Newsfeatures

Helena, Mont.—If it weren't for E. B. Robison, Diamond City, Montana, on the site of what once was called the richest acre on earth would be a ghost town.

For nearly 30 years Robison has lived in what once was a roaring city of 10,000 people, and for much of that time he has been its only inhabitant.

Diamond City has all the qualifications for a ghost town. Robison's log home—once a drug store and later a stage coach office—is the only building remaining on the site a few miles southeast of Helena. Other buildings that once lined Confederate Gulch have been moved away or buried. Roof-trees can be found 30 or 40 feet beneath the earth washed down by hydraulic operations.

Memories still haunt the silent slopes of the gulch, where young trees have started to heal scars gouged by early prospectors. When Robison first went there in 1918 from Idaho, about 15 of the town's original miner-inhabitants still were conducting small-scale operations.

The community started about the time of the Civil War. Four southern soldiers made a strike—hence the name Confederate Gulch. The rush that followed brought the city's population to some 10,000. Seven thousand voted in one election. There were 32 saloons.

Early-day miners declared Con-

and emphasized the need of Michigan people in recognizing the superiority of their state. In comparison with other states, he said, Michigan has natural and industrial resources of which the people should be proud.

LISTEN TO "NUMBER PLEASE" Monday Wednesday & Friday 6:15 P. M. WDBC "SONG SPINNERS" Michigan Bell Telephone Company

federate Gulch yielded \$180 to the pan. But that record was forgotten when German, or Montana, bar yielded more than \$1,000 per pan.

## Cambridge Gives Classics A Jolt

Cambridge, England (AP)—An educational precept venerated for ages has been jolted in the classic atmosphere of Cambridge University, by a suggestion that Latin and Greek are not necessary for the pursuit of certain university courses.

A small and iconoclastic committee of the council of the university senate dropped the suggestion tentatively, and hedged it with restrictions.

In some quarters it was called the beginning of a move to abolish a knowledge of Latin and Greek as entrance requirements. But a university official explained hastily:

"The matter is only in the exploratory stage."

A fish would suffocate if placed in boiled or distilled water.

## Negaunee Youth Killed By Auto

Negaunee — William Davis, eight-year-old son of Mr. and Mrs. Francis Davis, Pioneer location was fatally injured when his bicycle crashed into a car driven by Clarence Bourgeois, 23 of Route 1, Marquette, on a curve near the top of Dry Bush hill.

Bourgeois and John Brumm, Marquette, a passenger in the car, told city police they were traveling up the hill between 25 and 30 miles an hour and the boy, on his way to school, was riding on the left side, close to the middle of the road, when the accident occurred.

# NATIONAL FOOD STORES

# American Young Couple To Return To Brazil, Land Of Opportunity

Brazil is a country bigger in area than the United States, rich in undeveloped resources, and the people are turning toward the U. S. for their education and culture.

"It is a country that my husband and I plan to return to when we have completed our education," said Mrs. John Leighton, who is visiting Mr. and Mrs. Louis Flath, 907 South 14th street. Mrs. Flath is her aunt, and Mrs. Leighton has visited often in Escanaba when she was a girl.

Born in Huron, S. D., the daughter of Mr. and Mrs. R. K. Lenzner, who are also guests at the Flath home, Mrs. Leighton went to college in South Dakota and to Northwestern University for three and one-half years before she joined the WACS. At the close of the European fighting, after serving at Casablanca, in Algiers, Cairo and Italy, she married John Leighton of Boston, who was then with the Army Air Corps in Italy.

**Honeymoon on Capri**  
"We were married in June, 1945,—yes, a June wedding—and spent our honeymoon on the Isle of Capri," said Mrs. Leighton. "The island is just as romantic and beautiful as the song about it," she added.

Returning to the United States they were discharged about the same time and went to South America, for he had been employed in Brazil before the war. John had attended Tulane University where he played football until an injury put him out of the game. Disgusted, he left Tulane and worked his way on a boat to South America. His meteorology studies at Tulane stood him in good stead and his last big job before the war was setting up weather stations for Pan-American Airlines.

Now out of service Mr. and Mrs. Leighton went to Brazil where they spent three months traveling deep into the interior of the country by river boats, horses and other primitive means.

"Once you leave the industrial coastal cities Brazil is a great and sometimes unexplored jungle. Our maps would show rivers and roads where none existed, and we found rivers where there were none on the map," she said. "The people in the interior are mostly native Indians."

**The Language Barrier**  
The mouth of the giant Amazon, largest river in the world, and located at the equator, impressed Mrs. Leighton. The climate was hot but not humid or uncomfortable. The river mouth itself required six hours to fly across in a small plane and eight days to cross in the small coastal sailcraft. From the air the rushing current of the Amazon could be seen pushing into the ocean for two miles.

Resources running low, the Leightons headed back for the industrial cities of the coast and finally settled in Sao Paulo in the southern part of the country. There John was employed as an engineer by Ford Motor company and she taught English to Portuguese-speaking Brazilians in a cultural relations project sponsored by the U. S. state department.

"The Brazilians want to speak English," said Mrs. Leighton earnestly. "Yet the Americans who go there seldom take the trouble to learn the Brazilian's language. I have sometimes been embarrassed for people of my own country because they refused to speak Brazilian or attempt to understand the Brazilian people. Some of our people have lived in Brazil for 25 years and cannot speak the native language."

**No Free Education**  
John Leighton speaks seven languages and Mrs. Leighton

learned "working" Portuguese within a few weeks.

Until two years ago Brazil was ruled by a dictator, now has a constitution patterned after that of the U. S., with a president. Until about 15 years ago and the start of the "Good Neighbor" policy Brazil's young people of wealth received their education and cultural training in Europe. Now they have turned to the United States and their young people are enrolled in the thousands in our colleges and universities.

Brazil itself does not have free education. The private schools are expensive and therefore there are few educated persons.

**Only Rich Or Poor**  
"There are either the very rich or the very poor in Brazil. There is no middle class such as we know in this country," said Mrs. Leighton.

Although the population of Brazil is composed of Portuguese, Negroes and Indians there is no racial conflict or racial problem, she said. Intermarriage is common.

The Brazilians copy everything that has to do with the United States and look to us for money, technicians and other help in developing and utilizing the vast resources of their country. The Leightons plan to return to Brazil when he has completed his industrial relations studies at the University of Alabama which he entered this year, and she her studies at North-

## Germfask

### Church Services

G. Germfask, Mich.—Mass at St. Therese Catholic church Sunday, Sept. 21, 8 a. m. Confessions Saturday evening 7 to 8 p. m.

Methodist Sunday school Sunday, Sept. 21, 11 a. m.

**Personals**  
A daughter was born to Mr. and Mrs. L. Russell at the Newberry Clinic Thursday.

Mrs. D. Nelson was dismissed from the Shaw Hospital and returned to her home here.

Mr. and Mrs. Dick Martin and son David and Mr. and Mrs. Geo. Orlich spent the weekend at Indian Lake with relatives and friends.

Mr. and Mrs. Marvin Pike of Hancock were recent visitors at the home of Mrs. Pike's grandmother, Mrs. Matilda Lustila. Mr. and Mrs. O. D. Taylor of Grand Rapids spent the weekend as guests of Mr. Joseph Boyd.

Mr. John Bromble of Denison, accompanied by Messrs Robert Wolf and Kenneth Carr of Eaton Rapids called Sunday at the home of his grandmother, Mrs. Margaret Tovey.

Mr. and Mrs. Eugene Conlon and Mr. Edward Doran of Newberry and Mrs. Etta Maltas of Sault Ste. Marie called on relatives here.

Western, which she will enter soon.

tives and friends here Sunday.

Miss Patricia Shay, who is attending St. Joseph Academy at Green Bay, Wis., spent the week end here at her home.

Miss Irene Lawrence, who is attending Loretto High school at Sault Ste. Marie spent the weekend at her home.

Mr. Albert Boyd returned Monday to Bay City where he is employed after spending about ten days at his home on account of illness.

Miss Frances Oaken, Michigan Bell Telephone operator, who has been employed at Detroit, has been transferred to the Marquette office.

## Fishing Boats Free Of Greek Red Tape

Athens (AP)—Thirteen American-made refrigerated fishing boats which have been idle for months because of jurisdictional bickering between government agencies will be put into service shortly to supplement the Greek fishing fleet which now is able to provide only 50 per cent of fish consumed in the country.

The well-equipped modern 70-ton vessels were provided by UNRRA, but it took intervention by the American Aid Mission to get them released from a snarl of red tape that had kept them idle.

Greece has been importing 20,000 tons of fish annually primarily from Turkey.

## Church Events

### Bethany Meetings

Three Bethany Lutheran church groups will meet Saturday morning—the confirmation class at 9 o'clock; the Sunday School choir at 9:30 o'clock and the Triolet choir at 10:30 o'clock.

**Poupore-Brazzil**

Heleen Ann Poupore, of Detroit, daughter of Mr. and Mrs. Antoine Poupore, of Nadeau, and William Brazzil, of Detroit, a son of Mrs. A. Brazzil, were married at St. Bruno's church in Nadeau at a recent ceremony performed by Rev. Fr. Lester Bourgeois.

The bridal attendants were Miss Frances Salinas, of Detroit, who was maid of honor; Ethel Poupore, only sister of the bride, who was junior bridesmaid; Rosemary and Mildred Poupore, bridesmaids; Robert Brazzil, of Detroit, who was best man for his brother, and Charles Flambee and Norbert Poupore, ushers.

The bride wore a gown of white satin and net and carried a shower bouquet of calla lilies and mums. The maid of honor was dressed in rose sheer over taffeta and the bridesmaids wore like gowns of aqua shade. They carried colonial bouquets.

A reception in the parish hall followed the ceremony. The couple will live in Detroit.

**Near East Circle**

The Near East Circle of the First Methodist church will meet at 2:30 o'clock this afternoon at the home of Mr. and Mrs. P. Ness, 829 First avenue south. Hostesses are Mrs. Palmer Ness and Mrs. Alvin Ness.

**St. Ann Club**

St. Ann Social club will meet at Grenier's hall this evening after services. The business session will be followed by games.

**Rebekah Party Tonight**

A grocery party, sponsored by Phoebe Rebekah lodge, will be held this evening, beginning at 8 o'clock, at the I. O. O. F. hall. The public is invited.

**V. F. W. Auxiliary Meeting**

Social plans for the winter months were made by the VFW Auxiliary at its meeting Wednesday night in Grenier's hall. Plans were also made to attend the Tenth District Rally to be held at Trowwood Sept. 26-28 at which National President Dorothy Mann will make her initial visit. A social hour followed the meeting. Lunch was served by Esther LeGault and her committee. Mesdames Lillian Embs, Marie O'Donnell and Elizabeth Byrnes.

Corinne Stiemert  
Becomes Bride Of  
Robt. R. Brinker

Miss Corinne Stiemert, daughter of Mrs. Abbena Stiemert of 112 South Tenth street, yesterday afternoon became the bride of Robert Raymond Brinker, son of Gene Williams, 1308 South 11th street. The ceremony was performed at 3 o'clock yesterday afternoon in Central Methodist church by Rev. Karl J. Hammar.

The traditional wedding music and "The Lord's Prayer" was sung by Miss Florence Anderson. The altar was decorated with gladioli in pastel shades.

Attending the couple were Miss Shirley Stiemert, sister of the bride, and Warren Stiemert, brother of the bride, was best man.

The bride chose a white brocaded satin gown with fitted bodice and sweetheart neckline for her wedding. The penum of the gown was trimmed with silver sequins, and the sleeves were long. A veil of finger-tip length fell from a satin headdress trimmed in sequins, and the bride carried white roses, gladioli and blue larkspur.

The gown of the bridesmaid was of blue satin, net and lace, trimmed in pink velvet. Mrs. Stiemert, the bride's mother, wore a pale blue suit with black accessories and her corsage was of red roses.

Following the ceremony a buffet supper was served at the home of the bride's mother to about 150 guests.

Guests from out of the city included Mr. and Mrs. William Brinker of California and S. Nelson of Marquette. Mr. and Mrs. Brinker will make their home at 605 Stephenson avenue, Escanaba.

**Today's Recipes**

From Mrs. Adrian Joint of Racine, Wis., former resident of Escanaba, comes this recipe for a casserole dish that is delicious:

**Danish Chop Suey**

1/2 lb. pork and 1/2 lb. veal, diced and browned.  
1 lb. pkg. noodles  
1 can golden bantam corn

1 green pepper, 1 onion and 1 red pepper or pimento, cut fine. Salt and pepper to taste.  
Put in baking dish, pour over mixture 1 can of chicken rice soup, add grated cheese and cover with cracker crumbs. Bake 1 hour at 350 degrees.

Bacon drippings are excellent to use for bran muffins, spice or molasses cookies and gingerbread. The sturdy spice and molasses covers any fat flavor.

## BABSON FAVORS SMALL TOWNS

College Community Is Termed Choice Spot

BY ROGER W. BABSON  
New York City—If you are lucky enough to live in a city or town of modest size, give thanks for your good fortune. For you to change to New York or some other crowded big city, might be a bad move because these economic dinosaurs may be doomed. City life for the average mortal is a drab and sorry affair. With prices high and supplies low, most big cities offer only poor sleeping quarters and tiresome meals. Someday, you will understand that health is life's priceless asset, especially for the woman.

Those who have trekked cityward and lost out, remind me of another bitter truth. Life never can be so lonely as in a great city swarming with strangers. The abysmal loneliness of the newcomer and outsider often leads to taking up with bad companions. Broken church ties are not renewed. Spiritual relations are neglected. The abnormality of life in a big city too often undermines moral standards that originally were firm.

**Small-Town Outlook Best**  
Due to these jam-packed cities, I would caution those of all ages, particularly young people with youthful families. Youth has the longest time to regret an error! Certainly, congested cities are not fit places to raise children—the one highest goal of a happy married life. Thoughtful parents will think twice before sentencing their loved ones to such physical unwholesomeness and spiritual squalor.

Having been brought up in a farming and seafaring area, I cherish no delusions that the small-town or rural hamlet is all sweetness and light. Yet I can promise readers that, for all its faults, it is free from much of the degradation and ill of the overgrown and under-privileged metropolis. Furthermore, the ever-faster advance of science is adding to the advantage of country life. Think how rural life is being constantly enriched by better transportation, better communication, better education and better facilities of all kinds.

**Atoms In Your Future**  
Look too at the other side. Just as science has bettered the smaller communities, it has created new hazards for big cities. If World War III ever explodes, some of our monsters of mass living will be made-to-order targets for the enemy's atom bombs and bacterial assaults. Mankind will be less eager to lift skyscrapers to heaven, understanding full well what grim harvest of destruction may be reaped from those distant skies. The Atomic Age has put a new premium on spacious sites—both for industry and residence. Intelligent nations will prefer to expand horizontally rather than vertically.

In the years to come, inbound, cityward migration will peter out and dry up. The outbound, countryward movement will rise to a mighty tide. Watch the workings of the Law of Action and Reaction! The building of too-big cities has been overdue. Reversal is overdue. Young people, then, face a plain choice. They can follow an outdated and outmoded tradition, seeking the big city in forlorn hope of making big money, or can live in small communities as God intended. Big-town now is better equipped to deal out misfortunes than fortunes. Wise young people will ride the rising trend toward the countryside.

**College Towns Choice Spots**  
If you can live near a college, count that an added asset for your life's career. The nearby presence of a humble institution of learning or culture, may yield more far-reaching influence than all the lumber, brick, steel and cement which big-city builders can pile together. The college of broad ideals is a part of the community where it is located and deals in inspiration as well as instruction.

Industrial leaders are interested keenly in spreading operations more widely throughout the less densely populated regions. This opens more jobs everywhere. If a healthful and economic setting aids in running a mill, how much more vital are such considerations in rearing a family? The future holds every promise that the best opportunities for health, security and happiness, will be in the smaller community. The Main Street which is built for goodness rather than bigness, will live on to bless its fortunate inhabitants long after Grand Avenue is paved with grass!

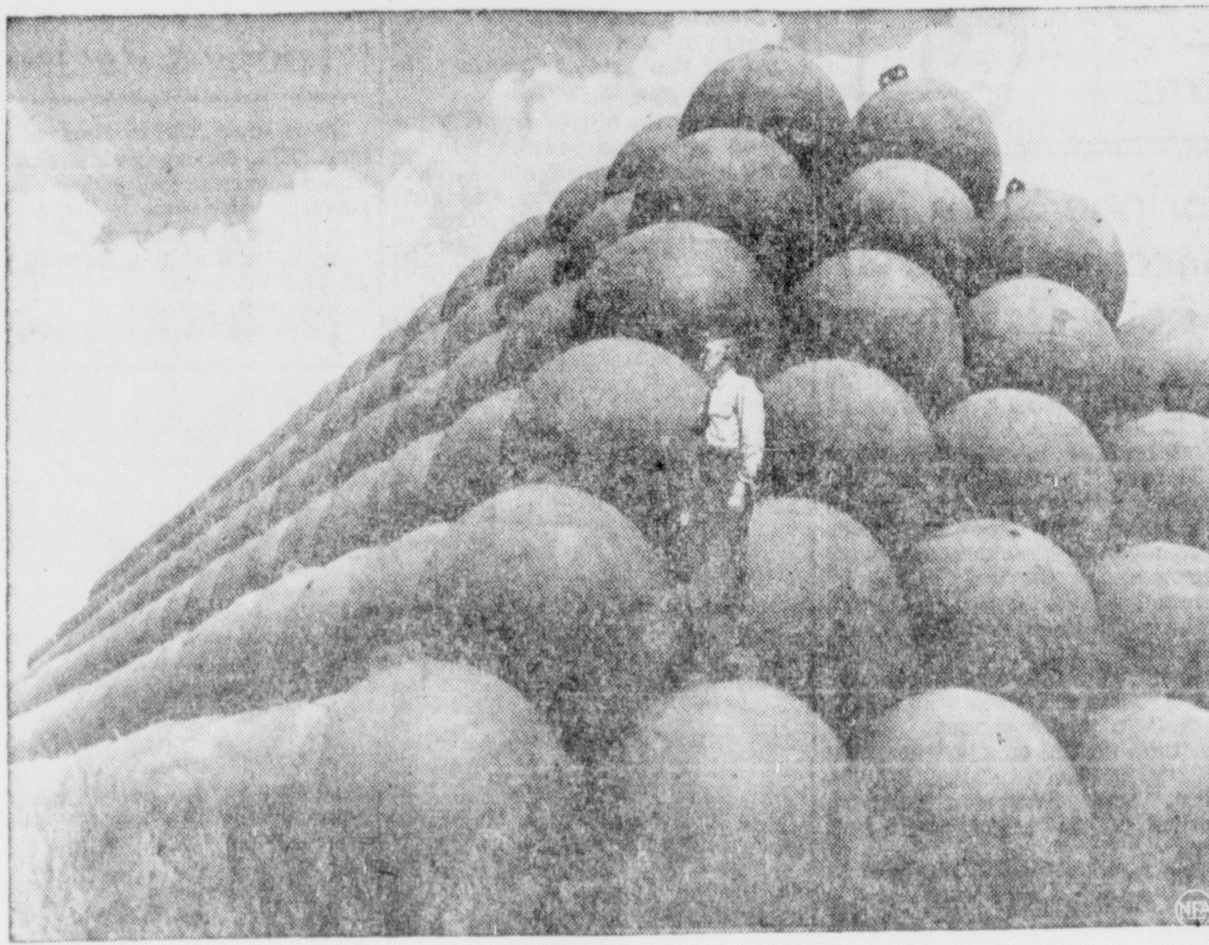

## Formal Diplomatic Relations Started With Burma By U. S.

Washington, Sept. 18. (AP)—The United States and Burma established formal diplomatic relations today for the first time in the history of the two countries.

Britain, which formerly ruled Burma as a colony, has granted her the right of self-government. The American ambassador to Burma has not yet been chosen.

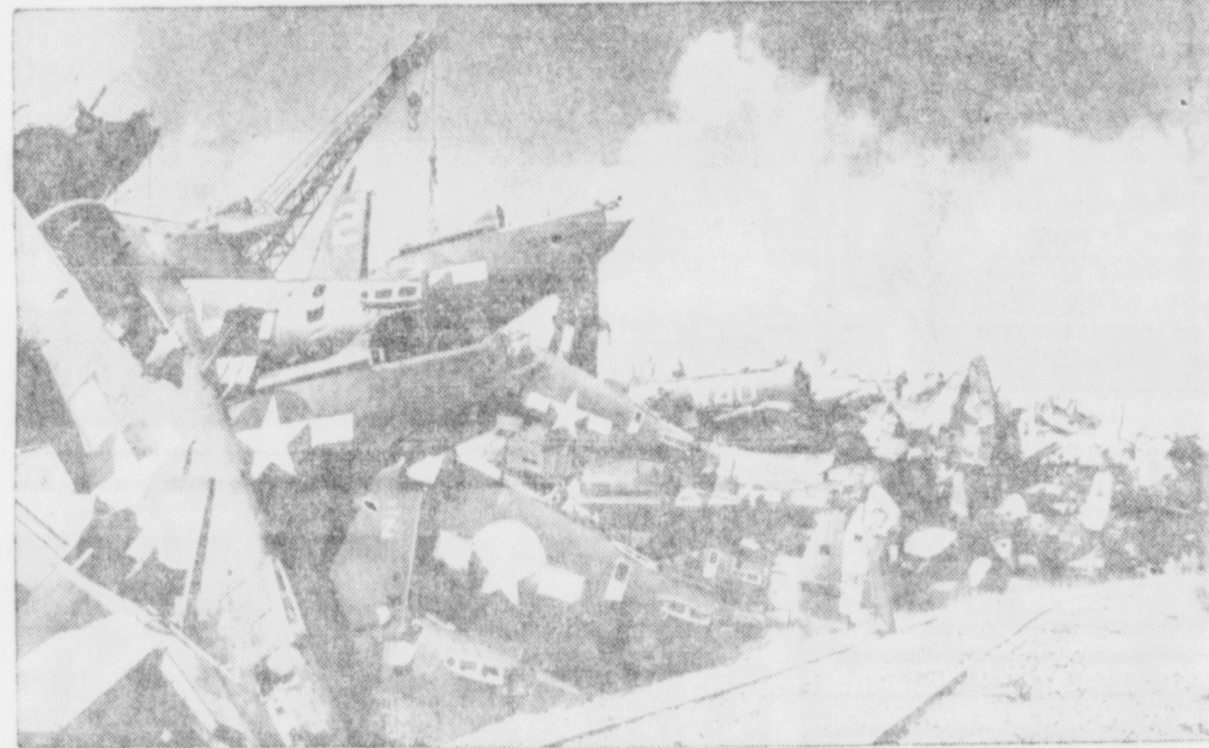

Treaty Oak, South Bend, Ind., under which LaSalle drew up a treaty with the Indians in 1681, still is standing.

John Barrymore was called "Ya Han" by Chinese movie fans.

## GHOSTS OF A GLORIOUS PAST

Without a war to fight, the Navy's planes, ships and miscellaneous equipment are kept at bases, some for storage in case of emergency, some for sale as obsolete, some for scrapping. Above, at Norfolk Naval Base, Norfolk, Va., Lieut. David B. Blaine inspects some of the 5000 ball-floats, which formerly supported anti-submarine nets. At right are some of the Navy's reserve vessels, while below, is the salvage depot where wrecked planes are dismantled, and valuable metal salvaged. Photos by NEA-Acme Staff Photographer Frank Cancellare.

## Library Adventure

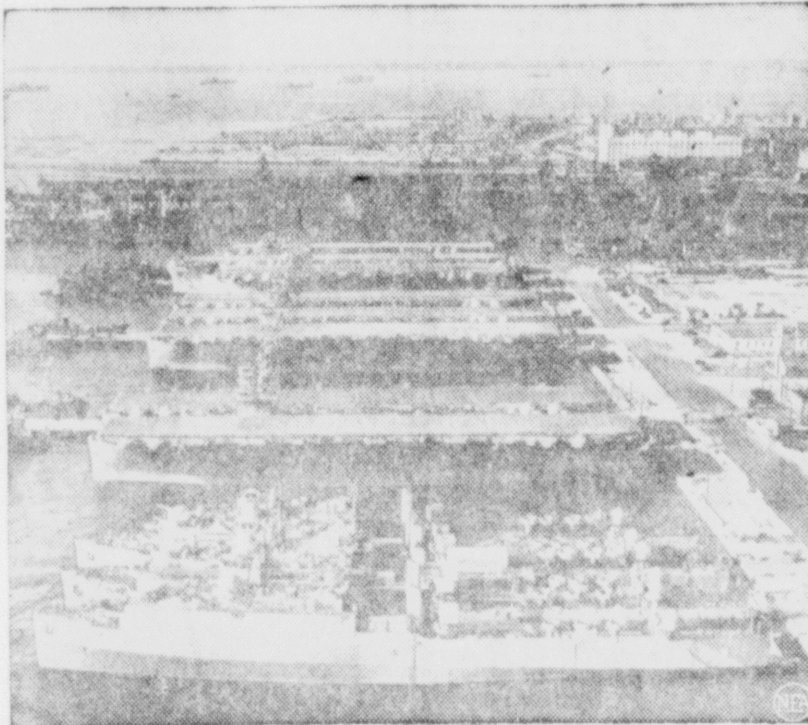

By Arnold Mulder

**HOW THE SUBJECT** matter for poetry has changed is illustrated by the case of Robert Penn Warren. Warren came to popular notice last year when his novel, "All the King's Men," was awarded the Pulitzer prize. Before that time, although he had published a good deal of poetry and prose, he had remained almost completely unknown. Now the magic of the Pulitzer prize has brought even his poetry into public notice, so much so that one of his long poems, "The Ballad of Billie Potts," has just been reprinted in an anthology of American literature.

And "The Ballad of Billie Potts" tells a good deal about the temper of contemporary poetry. You could not possibly imagine this poem being written by anyone in the nineteenth century, or if written having a chance at publication. In both subject matter and language it is a million miles removed from the poetry of the Victorians. Tennyson or Browning in England, or Lowell in America, would not have dreamed of writing such a poem. This is not saying that it is inferior to the poetry of the Victorians, only different from it.

First of all in subject matter. The Victorians were likely to write about the romantic doings of King Arthur or the loves and hates of dukes and nobles or the idealistic visions of a Sir Launfal or the sorrows of a frontier Evangeline. "The Ballad of Billie Potts" is quite a different dish of poetic substance.

Billie Potts is a tough youngster who lives on the American frontier in what the poet calls the "land between the rivers"—that is, somewhere on the Kentucky border. His father and mother, tavern keepers, get rich killing off travelers and robbing them. As a young man Billie attempts a "job" of that kind on his own, but he botches it, so that he has to vacate himself for a few years to elude the law. His dotting father and still more dotting mother take his absence so hard that they lose their grip

## Library Adventure

possible as a subject for the poetry of an older day. The older poets would have rejected it as "unsuitable" for poetry. There is of course no reason why it should not be used as a subject for poetry, grim though it is. Properly speaking, there is no subject that is not suitable for poetry.

The language of the Robert Penn Warren poem matches the subject matter. The older poets were usually afraid to use unconventional language. Even Wordsworth, who fought for language emancipation, remained conventional to a large extent. Robert Penn Warren uses words and phrases that the older poets could not possibly have used, that to this day most newspapers cannot possibly use.

Poetry is changing; not necessarily deteriorating, but necessarily changing. The hammerhead, an African bird, builds a nest which requires six months to construct. Falcons kill their prey while in full flight by striking a blow with their half-closed talons.

## NEW ORLEANS GETS SET FOR SAVAGE GALES

(Continued from Page One)

The storm, which swept across lower Florida yesterday killing at least four persons and causing millions of dollars in damage, still contained winds of 80 to 100 miles an hour within 50 miles of its center. Hurricane warnings flew on the Gulf coast from Morgan City, La., eastward to Cedar Keys, Fla.

Along the Mississippi and East Louisiana coasts, boats put in to snug harbors, aircraft were stored or flown out of the area, schools were ordered closed, and general alarm spread. Some 60 ships tied up or anchored in the Mississippi river at New Orleans, one of the world's busiest ports.

Weather Forecaster W. R. Stevens reported "definite danger" of 75 mile hurricane winds in New Orleans, and pounding up to 100-MPH was expected where the main blow strikes.

At 5 p. m. (CDT) the weather bureau placed the storm roughly 200 miles south of Panama City and continuing its movement west-northwest.

## Fruits Hard Hit

The storm gashed a wide belt of destruction yesterday from Miami Beach on the east coast of Florida to Fort Myers on the west, and while casualties were low the damage soared to many millions of dollars. Tonight hurricane warnings flew along a 500-mile stretch of Gulf coast.

At Mobile City buses evacuated 3,500 persons from a wartime housing project on Blakely Island, and acting Mayor Charles Baumhauer said Bankhead vehicular tunnel under the Mobile river would be closed if waters inundated the approaches.

A two-masted schooner, Valkyrie, her decks awash, was reported breaking up in choppy seas off Timbalier Island. Two crewmen, however, were sighted from the air on Isle Derniere, 15 miles further west, and signalled they were safe.

Meanwhile, in the wake of the hurricane, water swirled over thousands of acres on Florida's lower west coast, and Fort Myers estimated up to \$1,000,000 damage. Highways around the city were thin ribbons in a vast grassy lake, and water stood 24 to 30 inches in the lowlands. Citrus groves were hard hit, with oranges and grapefruit almost carpeting the ground in some places.

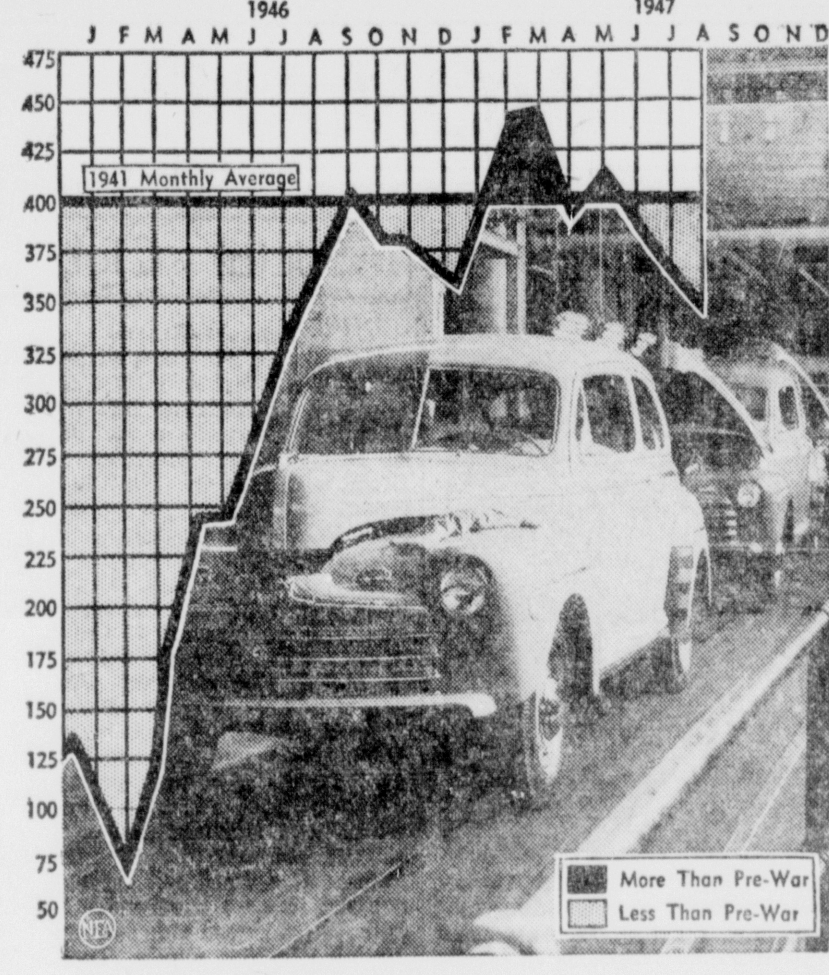

A weak radio report from Naples, a small town 35 miles south of Fort Myers, said roofs and sides of houses were crushed. Emergency crews feared they would find dead or seriously injured as they began digging in the wreckage.

**Emergency Proclaimed**  
Word from Nassau said the hurricane destroyed or severely damaged most of the houses and all the docks on the west end of Grand Bahamas. The island, mostly westerly of the Bahamas, is 75 miles east of Palm Beach.

Winds up to 100-miles an hour were expected to tear inland somewhere along the southeast Louisiana coast Friday forenoon.

In Florida, the office of Gov. Millard Caldwell disclosed that President Truman had proclaimed an emergency in Florida, and federal agencies were authorized to assist with aid and rehabilitation.

Misuse of electric irons is responsible for nearly forty fires a day in the United States.

**DARK OUTLOOK FOR YOUR NEW CAR**—Automobile production is still behind pre-war figures. In 1941, about 4,800,000 passenger cars and trucks came off the assembly lines, or about 400,000 per month. On the photo-graph above, we've placed the 1941 average monthly production line over the 1946-1947 figures. The shaded area shows how much '46-'47 production fell below pre-war figures, while the black peaks indicate production in excess of the '41 average. Current figures are from Wards' Automotive Reports.

## Young Employees In Shanghai Use Offices For Home

By EDDIE CRIGHTON

Shanghai—The housing problem in Shanghai is only slightly alleviated by the practice of junior Chinese employees using their offices as homes. But it does make the employee feel a little better about the small salary he receives and provides him with a lot of fun.

Once the boss has closed his office for the day, the curtain rises for the second act.

The main thing is to see that the "old man" or "bald head" or "fat belly"—three terms frequently used by Chinese in referring to the person who fills their rice bowls—gets into his car and is safely on the way home.

Once this has been accomplished, it is the work of only a few moments for the No. 1 boy to open up the office again and turn it into a home away from home.

**The Family Washes Up**  
First comes the ubiquitous wash basin. Hidden in the deep recesses of an old filing cabinet, it is filled with hot water from a thermos and placed on the boss' wide mahogany desk.

The No. 1 boy's wife, children, relatives and friends who have spent the day playing along the corridors or on the street below, troop in and enjoy a wash.

The women then prepare the evening meal on a hot plate, running up the company's electric bill.

The repeat over, the gathering settles down to some entertainment.

The mahogany desk makes an ideal ping-pong table. A smaller desk serves excellently for a game

of mah-jong.

When bedtime comes, camp-beds, straw mats, or whatever else is appropriate for a good night's sleep are brought in.

## Economical Practice

Living on the office premises has many advantages, including the fact that those who practice this form of modern living in Shanghai escape taxes, utility bills and transportation fares.

Not everyone, however, is as lucky as an office boy working in two adjacent offices, neither boss of which is aware that he is working for the other.

By spending a quarter of an hour, at regular intervals, throughout the day, at each office,

## SOVIET ENVOY CALLS DULLES WAR-MONGER

(Continued from Page One)

by-pass the security council."

Vishinsky sat down to the applause of the Russian group in the assembly, which had cheered him several times. The United States delegation did not applaud or make any move when the grey-haired prosecuting attorney, now a diplomat, finished.

He made these other contentions in his speech:

1. The Truman doctrine laid down last March was the first break by the United States from the unanimity of the great powers in the U. N.

2. The Marshall economic plan for Europe was merely an extension of the Truman doctrine to cover all Europe.

3. The United States and Britain are responsible for the lag in setting up atomic energy controls.

4. Soviet Russia will stand firmly against any attempts to disrupt the unanimity of the great powers—the veto right.

5. Official and private circles in the United States are hurling unfounded charges of war preparations against Russia.

## Woman, 64, Crushed By Circus Elephant At LaFayette, Ind.

LaFayette, Ind., Sept. 18. (AP)—Mrs. Gertrude Burton, 64, of Clinton, wardrobe mistress for the Daily Brothers Circus, was crushed to death today when an elephant stepped on her at the circus grounds after another elephant had knocked her over accidentally. Witnesses said Mrs. Burton was walking between the two animals when one of them turned suddenly and knocked her down.

he maintains the appearance of being on hand throughout the working day at both places and enjoys two full-time salaries.

In the evening he sublets one of the offices as sleeping quarters.

## POLICE LOCATE MISSING BRICK

But It's Already Used In Two Building Projects

Some 1600 to 1800 bricks missing from a construction job on a farm this side of Cornell have been located by Michigan State Police and sheriff's deputies to whom the case was reported.

Theft of between 1600 and 1800 bricks was reported by Clifford South who is having a home constructed on the Escanaba River several miles southeast of Cornell at a point known as Riverview.

Investigation disclosed that South had had an argument over work done by a cement contractor who had constructed the basement. Checking a home at Escanaba where the contractor was now working or had later worked revealed that brick of the same type had been used in the Escanaba structure.

Under questioning the contractor admitted taking 300 to 400 bricks from the job but said he was given permission by another contractor on the job whom he was to pay. The other contractor named admitted, officers said, that he had given permission to the other party to take the bricks. He said he had not been paid for them.

It was also learned that the bricks had been used on two different projects in Escanaba.

Inasmuch as the contractor admits taking only about one-fourth the number declared missing efforts are being made to make an accurate check as to the number gone.

## McMillan

**William Bryers**  
McMillan, Mich.—William Bryers, 74, pioneer resident of Luce county, died Sunday, Sept. 14 at 1:30 p. m. in Manistiquette at the home of his daughter, Mrs. Lester Richards. He had been in ill health for the past two years.

Born in Bracebridge, Ont., on Feb. 6, 1874, Mr. Bryers came to Luce county when he was a boy, with his parents, and they settled in Lakefield.

He had been manager of the Lakefield telephone exchange for 35 years.

Surviving are his wife Delia, a daughter, Mrs. Richards, three sons, Earl of Newberry, Floyd of Lakefield and Emory of Detroit. Four brothers, Herb of California, Fred and Sam of Virginia, Minn., and Robert of Lakefield. Three sisters, Mrs. Mary Guetche of Detroit, Mrs. Winnifred Scott and Mrs. Esther Dolphin of Tampa, Florida, and 12 grandchildren also survive.

Funeral services were held Wednesday afternoon at 2 p. m. at the Beaulieu Funeral Home in Newberry with Rev. R. A. Garrison officiating. Burial was in the Lakefield cemetery.

**Entertainers**  
Mrs. Sam Simmerman entertained Monday September 14, in honor of her daughters, Eleanor and Katherine, the occasion being their birthday anniversaries. Games were enjoyed during the afternoon before lunch, which was served at a table decorated with pink flowers and two large birthday cakes. Guests at the party were Linda Weekley, Darlene Taylor, Edna, Marilyn and Margaret Nash, Mary Lee Hanger, Diane and Delores Koonz, Barbara and Larry Maddox, Margaret McInnis, Shirley Hanes and Gloria Simmerman. Mrs. Nels Maddox assisted her mother with the lunch. Eleanor and Katherine received many lovely gifts.

**Personals**  
Jay D. Tanner of Flint visited several days last week with his father, Jay Tanner and other relatives.

Mrs. Douglas Ball of Battle Creek is visiting at the home of her sister and brother-in-law, Mr. and Mrs. C. C. Minier.

Mr. and Mrs. James Williams are the parents of a son born Friday, September 12 at their home. He weighed seven pounds.

Mrs. Myrtle McMillan of Manistiquette was a guest for several days last week at the home of her sister and brother-in-law, Mr. and

**ENGAGED**—Mr. and Mrs. Wm. J. Heslip, 403 Tenth St., announce the engagement of their daughter, Bette Joy, to Irving L. DeRoock, son of Mr. and Mrs. Leo DeRoock, 501 Minneapolis Avenue.

Miss Heslip is a graduate of Gladstone high school, Class of 1945, and of the Business Institute, Milwaukee. At present she is employed by the Marble Boat Co. Mr. DeRoock also was graduated from Gladstone high with the Class of '45 and later served 14 months in the U. S. Navy. Since separation from service he has attended the Northern Michigan College of Education, Marquette, where he is entering his sophomore year.

No immediate plans have been made for the wedding.

## Reckless Driving Costs Motorist \$25

Pleading guilty to a charge of reckless driving before Justice of Peace O. C. Estenson cost Lawrence Bussineau, Sheridan Road, Escanaba, \$25 and costs of prosecution. Bussineau was arrested by city police Wednesday.

**Miss Sam Simmerman.**  
Mrs. William Hartwick spent Monday in Rock where she attended a wedding.

Mrs. John Armstrong and son, Michael, and Mrs. A. J. Mainville spent Monday in Sault Ste. Marie. C. H. Terry left Monday morning on a business trip to Royal Oak and Rochester.

Trooper Harold Snyder returned to his home in Manistiquette Thursday after spending a week with his mother, Mrs. Gretta Snyder.

Dr. and Mrs. Colin Varden of Detroit are spending a vacation with his mother, Mrs. C. C. Varden.

Mr. and Mrs. Everett Kiff of Jackson arrived Monday to spend some time at their cabin north of town.

Mr. and Mrs. Glenn Koonz and daughter, Delores, and Stanley Generous spent Tuesday in Marquette. Delores remained in St. Luke's hospital where she will receive further treatment.

Mr. and Mrs. Herman Morrow and children, Marjorie, Revva and Henry of St. Louis, Mich. and Mrs. Charles Curtis of Biley, Mich. were guests of Mrs. Clara Barney on Saturday.

Mrs. Nels Maddox visited with her husband in Manistiquette on Tuesday where he is a patient at the Shaw hospital.

## Two Sisters Sustain Identical Injuries In Similar Accidents

Two little girls, sisters, are going about with arms in slings, victims of similar misfortunes.

The girls are Helen Oathout, 10, and Alice Oathout, 6. Both took tumblers the same evening while climbing the same tree in a neighbor's yard. Both sustained fractured wrists.

There was one bright side to the picture, however, for Helen, who is right handed, broke her left wrist, while Alice, who is left handed, broke her right wrist. Thus they are not handicapped to a great extent in school.

The girls are daughters of Mr. and Mrs. Reed Oathout, 1415 Delta avenue.

## Briefly Told

**Novena Service**—Novena services will be held this evening at 7:30 o'clock at All Saints Catholic church.

**Covenant Auxiliary**—The Women's Auxiliary of the Mission Covenant church will meet this afternoon at the home of Mrs. John M. Olson on Michigan avenue.

## Social

**Auxiliary Social**  
The Past Presidents' club of the Legion Auxiliary met Tuesday evening with Mrs. Leslie Davis at her home on Superior avenue. Bridge formed a diversion and Mrs. Davis had high score. Mrs. Peter Cannon and Mrs. L. J. Weingartner were guests of the club.

## Sisters, Apart 36 Years, Are Reunited

A joyful reunion took place this week at the home of John Trygg, 515 North Tenth street, when Mrs. Edward Eggen of Portland, Ore., and Mrs. Lulu Lingrain of Garmaville, Iowa, motored here for a visit with Mrs. Trygg who is a sister of Mrs. Eggen and a sister-in-law of Mrs. Lingrain. It had been 36 years since they had last seen each other.

In building Boulder Dam, enough concrete was used to build a broad highway across the United States.

## DEATH TAKES MRS. SANDIN

Funeral Rites Saturday For Aged Resident Of City

Mrs. Mary Christina Sandin, 74, respected Gladstone resident, passed away Wednesday evening at the Ecklund Convalescent Home at Peshtigo, Wis., where she had been confined for the past two weeks. Mrs. Sandin had been in ill health for several years.

The deceased was born in Varnholm, Sweden, October 23, 1872. She had been a resident of Gladstone for 36 years, coming here in 1911. The following year she was united in marriage to Gust Sandin who passed away in 1935. Mrs. Sandin was a member of the First Lutheran church.

Surviving are one brother, John Nelson of Gladstone and a niece and two nephews.

The body was brought to Gladstone and taken to the Kelley Funeral home where it will rest in state beginning this evening.

Funeral services are to be conducted at the funeral home Saturday afternoon at 3:30 o'clock, the Rev. Clifford Peterson officiating.

Serving as pallbearers will be Swan and Carl Widar, Albert and Erick Lindahl, Leonard Elquist and William Nelson. Burial will be made in the family plot in Fernwood cemetery.

## Men's Bridge Club Will Plan For Year

Organization of the Men's Bridge club for the season will be held at a meeting to be held at the Yacht club at 8 p. m., next Wednesday, Sept. 24, according to notices sent to members by James T. Jones, president.

Officers will be elected and team captains chosen for the current season at this time.

## PIN-WORMS NOW CAN BE BEATEN

The miseries of Pin-Worms have been known for centuries, and millions of victims have sought a way to deal with this pest that lives inside the human body.

Today, thanks to a special, medically recognized drug, a highly effective treatment has been made possible. This drug is the vital ingredient in F-W, the Pin-Worm tablets developed in the laboratories of Dr. D. Jayne & Son.

The small, easy-to-take P-W tablets act in a special way to remove Pin-Worms. So don't suffer with the embarrassing, itchy, itchy caused by this only pest. Ask your druggist for JAYNE'S P-W and follow the directions. F-W means Pin-Worm relief!

## Former Resident Claimed By Death

Mrs. Teckla Sandstrom, 71, wife of John Sandstrom of Brampton, passed away yesterday morning at St. Francis hospital.

Mrs. Sandstrom, nee Teckla Tangman, was born in Resele, Sweden, on June 24, 1876, and came to America and Gladstone in 1903. She was married in 1905 to John Sandstrom at Gladstone and the family resided here until 1930. For the past 17 years they have lived in Perkins and Brampton.

Surviving are the widower, John, and one son, Danville, of Escanaba.

The deceased was a member of the Mission Covenant church.

The body was removed to the Kelley Funeral home where it will repose in state from this evening until the hour of last rites.

Funeral services are scheduled for Sunday afternoon at 2 o'clock at the Mission Covenant church with Rev. C. V. S. Engstrom officiating. Burial will be in Fernwood cemetery.

Some 146,000 horsepower are produced by one of the great generators built for the Grand Coulee Dam.

## City Briefs

Mr. and Mrs. A. T. Bertha have returned to their home in Ypsilanti after spending two weeks with the F. C. Oatoud's, 1204 Lake Shore drive.

James T. Jones, 804 Wisconsin avenue, is spending a week's business trip in Chicago.

Mrs. Fred Schoder and daughter, Linette left yesterday for their home in Bethesda, Md. after visiting her parents, Mr. and Mrs. Emil Peterson, 1320 Michigan avenue, for the past month.

Mr. and Mrs. Phyllis McDonald and daughter, Laurel, have returned to Des Plaines, Ill. after visiting Mr. and Mrs. E. H. McDonald, 311 Eighth street, for a week.

Mrs. Clyde Monks of Ionia and Mrs. Cecil McCoy of Lansing have returned to their homes after visiting here with Mrs. Muriel Elliott and with her aunt, Mrs. Harriet Hull.

Mrs. Fred Schoder and daughter, Linette, left Thursday to return to their home in Bethesda, Md., after spending the past six weeks visiting with her parents, Mr. and Mrs. Emil Peterson.

Mr. and Mrs. Hector Marcotte have returned to their home in Montreal, Canada, after spending several days visiting with Mr. and

Mrs. Clyde Fitzpatrick. Mrs. Marcotte is the former Hazel Dupuis, and is a former resident of Gladstone.

Mrs. W. R. Galbraith has returned to Minneapolis after spending the past several months visiting with her son and daughter-in-law, Mr. and Mrs. Clyde Fitzpatrick.

Marcia Skellenger, daughter of Dr. and Mrs. D. H. Skellenger, submitted to a tonsilectomy this morning at St. Francis hospital.

Mr. and Mrs. Francis Belongie returned Wednesday from Detroit where they spent two weeks visit-

ing with Mrs. Henry Faugnies and son, Francis.

Mrs. Ed Esler submitted to a tonsilectomy this morning at St. Francis hospital.

Mr. and Mrs. Lowell Carlson are the parents of a son, James Larry, born Sunday at St. Francis hospital. This is the first child in the family. Mrs. Carlson is the former Mildred Boden.

Among the members of the rose family are apples, quinces, plums, peaches, strawberries, raspberries and blackberries.

## Briefly Told

**Rummage Sale—**The VFW Auxiliary to Schoolcraft County Post 4420 will hold a rummage sale today and Saturday, beginning at 10 a. m., in the Ford garage. Anyone having rummage to be picked up may call 365-W.

**Dance—**The Cooks PTA will sponsor a dance on Saturday evening at the Cooks school. Lunch will be served.

## Soccer League For Youngsters Formed

Youngsters of 11 and 12 year old groups from Lincoln, Lakeside and Central grade schools have been organized into a soccer league and will play a schedule of two games per week, the games to be played at the Central school field at 4:15 o'clock.

These games are under the direction of T. H. Reque, recreational director. Soccer, which gives much leeway in the number of players who participate—just so an even number play on each side—gives a larger number of boys an opportunity to play.

Following is the schedule:

**September—**  
23, Central vs. Lincoln.  
24, Lakeside vs. Lincoln B.  
30, Lincoln A vs. Central.

**October—**  
1, Lincoln B vs. Lakeside B.  
7, Lincoln A vs. Lincoln B.  
8, Central vs. Lakeside.  
14, Central vs. Lincoln B.  
15, Lakeside vs. Lincoln A.  
21, Central vs. Lincoln A.  
22, Lincoln B vs. Lakeside.  
28, Lincoln A vs. Lincoln B.  
29, Central vs. Lakeside.

The speed of ants varies with the temperature.

Four Fares to Juneau, Small.

Canoe Country, Jacques.  
A Treasury of Fishing Stories, Goodspeed.

Design for Safe Driving, Schultz.

Ste. Marie to Marcus H. Bundy of Manistique and this city was her home until 1927, following Mr. Bundy's death when she went to Sault Ste. Marie to spend the winters with her daughter, Mrs. L. H. Waugh and her summer home.

Mrs. Bundy was active in the affairs of the Methodist church, taking part in every phase of church activity. In community affairs she played a prominent part in the Manistique Women's club and served as home secretary of the Red Cross after the close of World War I, filing a complete and comprehensive report of the service record of every Schoolcraft county man who entered the service.

Surviving her are her son, Kleth, of Manistique; and daughter, Ruth, of Sault Ste. Marie, and three grandchildren, Marcus O. Waugh, of Sault Ste. Marie, and Hal K. and Hugh E. Bundy, of Manistique.

Funeral services will be held Saturday afternoon at 2:30 at the Methodist church. The Rev. Harold G. Cowdick, assisted by the Rev. Otto H. Steen of Escanaba. Burial will be in Lakeview cemetery. Friends may call at the Mortuary home up to Saturday noon.

Great Salt Lake contains a pound of solid matter for every four pounds of water.

Approximately 75,000,000 Americans are church members.

OFFER SPECIAL  
POTATO TROPHY

Sweepstakes Prize To Be  
Given Outstanding  
Grower

A special award, in the nature of a sweepstakes prize, will be given the outstanding potato grower in Schoolcraft county this season. This was decided upon at a recent meeting of the Schoolcraft County Potato Boosters association and the Manistique-Schoolcraft Chamber of Commerce.

The trophy will be a large loving cup, awarded by the Manistique-Schoolcraft Chamber of Commerce, engraved with the name of the winner and the year.

The trophy may be won by either a certified seed grower or a tablestock grower. The winner will be determined by using the score card used in the Schoolcraft County Potato Boosters' association growers' contest, except that to win the trophy, a farmer must raise at least 5 acres of potatoes. The growers' contest is open to any farmer growing 2 acres or more.

In determining the winner, the following factors will be considered:

- 1. Kind of seed planted and kind of seed treatment.
- 2. Seed bed preparation, including summer fallowing, plowing under organic matter, use of fertilizer, etc.
- 3. Cultural practices.
- 4. Disease and insect control.
- 5. Yield per acre and grade of potatoes.

CARD OF THANKS

I wish to express my sincere appreciation for the cards, flowers and gifts sent to me while I was a patient at the Shaw hospital.

Signed:  
Mrs. Ed Harrington

FOR SALE

Accidental death in family forces quick sale of choice home and its complete furnishings.

Just walk in and start living. 60 ft. landscaped lot on improved street. 7 rooms, light and airy, hard wood floors, built in features, kitchen with cabinet sink, steel cabinets, large dining room and den, bedrooms with new furniture, beauty rest mattresses.

\$1500 worth of furniture at 1/2 of original cost. Must be closed out at a sacrifice.

This opportunity seldom offered. Also a 5-room house—garage—3 acres—\$1800.

Alger Employers  
Warned Of Danger  
In Hiring Minors

Munising—Some Alger county employers are unaware of their responsibility in regard to the hiring of minor labor. T. A. Nevala, deputy inspector of the Michigan department of Labor and Industry, said yesterday, and pointed out that employers contemplating the hiring of minors under 18 years of age should first obtain approval of the occupation from the Department of Labor and Industry.

Applications for approval of occupations for minors should be made in duplicate on the official form supplied by the Labor division, department of Labor and Industry, the inspector said. The forms, he continued, may also be obtained from the state employment service. Approval is indicated by serial number.

Minors wishing to engage in full time or part time employment must make application with the superintendent of schools in Alger county provided the employer has received the approval number from the Department of Labor and Industry, he said.

Nevala cautioned employers that the employment of minors on other than the work described in the approval permits; prosecution under the statute; and/or double compensation in case of injury.

Further information on the employment of minors can be obtained from personnel of the Michigan State Employment Service office, East Superior street.

MUNISING BRIEFS

Nick Beattie has left for Marquette where he will enroll as a freshman in the Northern Michigan College of Education.

Mrs. David Erickson, visited relatives and friends in Escanaba Wednesday evening.

Mr. and Mrs. John Mayotte have arrived home after spending two weeks in Milwaukee, Muskegon and Detroit. Elizabeth Dugas, their granddaughter, accompanied them here.

Mrs. George Flatley left Wednesday for Detroit where she will attend the wedding of her son, Gordon. She will remain there a week.

Peter Johnson, son of Mr. and Mrs. George Johnson, left to attend Michigan State University in Lansing.

TIME CHANGE

Munising.—City commissioners in session this week favored changing clocks in the city from Daylight Savings time to Central Standard time concurrently with the time change in other U. P. cities.

This will put the time change this year at 2 a. m. Sunday, September 28, about 22 hours ahead of schedules followed in years past.

But UAW Vice President Richard T. Leonard remained confident that the big Rouge local, boasting more than half of Ford's 107,000 production workers, would swing the issue in favor of the pension.

Leonard favors the pension plan, which also provides a seven cent hourly pay boost for the Ford workers.

Other factions within the union want the alternative proposal of an 11 1/2 cent hourly pay increase and six paid holidays.

Meanwhile, Ford Motor Company of Canada opened negotiations with Local 200 of Windsor, Ont., today. Items under discussion include a proposed wage increase and a pension plan.

Membership pins will be given out; U. P. Fair premium money will be distributed, and county honors will be announced in the summer program.

The Michigan Farmer has initiated a new award this year for the outstanding 4-H club boy and girl in each county. It is a metal paper weight of copper color. On the face is a map of Michigan. Centered in the lower part of the state is the 4-H emblem. Immediately to the left appears the wording—Michigan Farmer County Award. The name and county of the winner is engraved on a panel appearing just below the design.

Other awards will be for garden, dairy, canning, food preparation, soil conservation, farm safety, and tractor maintenance.

Mr. and Mrs. James Olesak have returned to Waukegan, Ill. after visiting relatives and friends in Manistique for the past ten days.

Mrs. Ed Harrington has been dismissed from the Shaw hospital to her home on South Houghton avenue.

Miss Helen Wygal has left for a two weeks vacation visit in Detroit with her brother-in-law and sister, Mr. and Mrs. William Carlson.

Gordon Martin and Bud Wieland have left for Chicago where they will spend several days.

Mr. and Mrs. John Cumberworth of Charlotte and Mrs. George Spriggs of Battle Creek were guests last week of Mr. and Mrs. H. H. Score, Pearl street, while on a tour of the Upper Peninsula. The Scores accompanied them to Copper Harbor. Mrs. Cumberworth and Mrs. Spriggs are sisters of Mr. Score.

Mr. and Mrs. Harold Bradley and daughter, Carol Ann, have returned from a visit in Lower Michigan.

Judge To Hear  
Firearms Case  
Here Saturday

Munising.—Steve Richardson, 57, charged with possession of firearms in a game area after sunset, will be arraigned in justice court Saturday, Judge John A. Vizona announced.

Richardson was arrested by conservation officers last week near Camp Au Train at which time it was reported he had a single barrel, 16-gauge shotgun in his possession.

Dated August 20, A. D. 1947. WILLIAM J. MILLER, Judge of Probate.

State Official  
To Speak Here

Munising.—D. Hale Brake, state treasurer, will speak on the subject of state finances at a joint meeting of the Munising Lions and Rotary clubs Tuesday evening at the Beach Inn, it has been announced.

The Rotary club will be host to the Lions for the meeting and members of both organizations are invited to bring guests.

The state official will also visit other U. P. points during the week.

SCHOOL SAFETY PATROL

Munising.—James Payant was sworn in as captain of the safety patrol of the Sacred Heart school in formal ceremonies performed by Chief of Police Urban Trombley Tuesday at the school.

Chief Radloff was made first lieutenant and Donald Monette a second lieutenant.

Members of the patrol are: Thomas Cartwright, Edward Turner, Charles Goss, Charles Tucker, Edward Vertz, William McKenzie, James Sowa, Melvin Baudry, George Sturgeon and Brock Strom.

Short talks on safety were made to the eighth grade students by Chief Trombley and Edmund Erickson during the ceremony.

MISSIONARY SPEAKS

Munising.—Miss Iini Aho, former missionary to China, will speak at the Eden Lutheran church this evening at 8 o'clock.

Her appearance here is sponsored by the Ladies' Guild of the Finnish Lutheran church.

Mrs. Fred Simonen will be the hostess for the evening.

RUMMAGE SALE

Munising.—The Presbyterian Guild of the First Presbyterian church will hold a rummage sale October 10 in the Legion club.

Week-Long Voting  
Begun On Proposed  
Ford Pension Plan

Detroit, Sept. 17 (AP)—More than 7,500 workers at the big Ford Rouge plant cast ballots today as the 65,000 members of Local 600 of the CIO United Auto Workers began week-long voting on whether to accept a proposed pension plan.

Returns from 10 other Ford locals throughout the nation showed the workers opposed to the pension idea by a 12 to one ratio.

But UAW Vice President Richard T. Leonard remained confident that the big Rouge local, boasting more than half of Ford's 107,000 production workers, would swing the issue in favor of the pension.

Leonard favors the pension plan, which also provides a seven cent hourly pay boost for the Ford workers.

Other factions within the union want the alternative proposal of an 11 1/2 cent hourly pay increase and six paid holidays.

Meanwhile, Ford Motor Company of Canada opened negotiations with Local 200 of Windsor, Ont., today. Items under discussion include a proposed wage increase and a pension plan.

Membership pins will be given out; U. P. Fair premium money will be distributed, and county honors will be announced in the summer program.

The Michigan Farmer has initiated a new award this year for the outstanding 4-H club boy and girl in each county. It is a metal paper weight of copper color. On the face is a map of Michigan. Centered in the lower part of the state is the 4-H emblem. Immediately to the left appears the wording—Michigan Farmer County Award. The name and county of the winner is engraved on a panel appearing just below the design.

Other awards will be for garden, dairy, canning, food preparation, soil conservation, farm safety, and tractor maintenance.

Mr. and Mrs. James Olesak have returned to Waukegan, Ill. after visiting relatives and friends in Manistique for the past ten days.

Mrs. Ed Harrington has been dismissed from the Shaw hospital to her home on South Houghton avenue.

Miss Helen Wygal has left for a two weeks vacation visit in Detroit with her brother-in-law and sister, Mr. and Mrs. William Carlson.

Gordon Martin and Bud Wieland have left for Chicago where they will spend several days.

Mr. and Mrs. John Cumberworth of Charlotte and Mrs. George Spriggs of Battle Creek were guests last week of Mr. and Mrs. H. H. Score, Pearl street, while on a tour of the Upper Peninsula. The Scores accompanied them to Copper Harbor. Mrs. Cumberworth and Mrs. Spriggs are sisters of Mr. Score.

Mr. and Mrs. Harold Bradley and daughter, Carol Ann, have returned from a visit in Lower Michigan.

# Homer Delays Pennant Clinching For Dodgers

## PIRATES NOSE BROOKLYN, 8-7

### Two More Wins Needed To Tie Up National League Flag

Pittsburgh, Sept. 18 (P)—Pittsburgh's Wally Westlake drilled a home run into the Greenberg gardens in the last of the ninth and the Pirates won an 8 to 7 decision over Brooklyn that closed out any chance the Dodgers had of clinching the National League flag today.

The defeat ended the Dodgers current road trip and they now come home for games with the Boston Braves on Saturday and Sunday, needing a combination of two triumphs or two defeats for the St. Louis Cardinals to win the pennant and meet the New York Yankees in the world series.

The Cardinals play a single game with the Boston Braves at St. Louis tonight.

All the Dodgers runs came on homers today with Bruce Edwards belting his ninth in the first inning with two mates aboard.

Ralph Kiner, Pirate outfielder broke his tie with Johnny Mize of the New York Giants by his 50th shot into the gardens in the second. Mize was kept out of the homer column at Chicago today.

Although the Dodgers took a three-run lead in the first, they were trailing, 4 to 3, when they scored a quartet of runs in the seventh on homers by Jackie Robinson and Carl Furillo. Each smash came with a runner on base.

Pittsburgh levelled the count in the last half of the eighth when three hits, including a double by Westlake, two walks and Jim Russell's outfield fly meant three runs.

Brooklyn . . . 300 000 400 7 8 1  
Pittsburgh . . . 011 020 031 8 10 0

### Rookie Shuts Out Senators, 4 and 0

Washington, Sept. 18 (P)—Rookie Bob Kuzawa stopped Washington with five hits here tonight as the Cleveland Indians defeated the Senators, 4-0. Cleveland nickered Walter Masterson for a run in the seventh inning and added three more runs off Rookie Bill Kennedy in the ninth.

Cleveland . . . 000 000 103-4 6 3  
Washington . . . 000 000 000-0 5 0

Kuzawa and Hegan; Masterson, Kennedy (9), Hudson (9) and Evans.

### Churches Make Big Strides To Give U.S. Religious Education

Chicago, Sept. 20 (P)—Religious education in the United States has entered a period of progress and growth, reports Dr. Roy G. Ross, general secretary of the International Council of Religious Education.

He cites increased participation in church-sponsored programs, predicts further increases, and says:

"The general 'climate' in America today is much more favorable to religious education than it was a decade ago.

"Our more substantial citizens are shocked by conditions which have resulted from lack of adequate religious training—broken homes, increased intemperance and child delinquency.

"Therefore, there is a manifestation of interest and concern on the part of serious-minded parents and civic leaders as we have not had in quarter-century."

Dr. Ross says there have been bigger turnouts at sessions devoted to instruction and character development since the end of the war. But, he added, the gains are "not nearly large enough."

"During the last two years attendance has picked up decidedly," he says. "I foresee a much larger pickup in the years immediately ahead."

He submits these statistics on activities:

More than 2,000,000 students were released from public schools for an hour a week this year so they could receive religious instruction at week day schools sponsored by Protestant churches.

The plan was in effect in 2,200 communities, a number that has been doubled in seven years.

Approximately 34,000,000 persons now are enrolled in Sunday schools.

Some 5,000,000 children and young folks attend vacation church schools, conducted for periods ranging up to four weeks during the summer months.

Lighting experts say your chances of being hit by lightning are 365,000 to one.

The peak wartime average output of crude oil in 1945 reached 4,695,000 barrels a day.

### Cooks To Play Bay De Noc All-Stars At Nahma Sunday

Nahma, Sept. 18—Cooks, undefeated winner of the first half and victor over Perkins in the Bay de Noc Baseball league championship playoff last Sunday, has one more test to face before hanging up the spikes until next season.

An all-star game is being arranged and will be played in Nahma next Sunday afternoon, beginning at 2:30.

Cooks will play the pick of the league, officials said today. Two players from each of the seven other teams in the new circuit will be selected to compose the all-star aggregation which will battle the champions.

The Bay de Noc league is completing its first year of operation, one which is regarded as a complete success by all parties concerned. It is regarded as one of the fastest little leagues in the Upper Peninsula.

### GAMES TODAY

New York, Sept. 18 (P)—Probable pitchers for tomorrow's major league games (won and lost records in parentheses):

American League  
Washington at Boston—Candini (3-4) vs. Stobbs (0-0)  
Only game scheduled.

National League  
Chicago at St. Louis (night)—Schmitz (11-17) vs. Brazle (12-8)  
Only game scheduled.

### SHEA RETURNS TO YANK DUTY

Rookie Pitcher In Line For Series, Trims White Sox, 3-1

New York, Sept. 18 (P)—Frank (Spec) Shea, New York Yankee rookie pitcher out with an arm injury since July 5, announced his complete recovery and a claim for a World Series mound assignment today by stopping the Chicago White Sox, 3 to 1.

Shea, who now has won thirteen and lost five, had a two-hit shutout until the ninth inning when Rudy York belted one of his pitches into the right field stands.

The youngster fanned eight but walked five, Ed Lopat, White Sox pitcher, also walked five and three of the passes came in the sixth and were combined with George Strinweis' single for the first Yankee score.

Four Yankee hits, including Shea's second single, were bunched in the seventh for two more counters.

Chicago . . . 000 000 001-1  
New York . . . 000 001 208-3

Errors—Wallace, Lopat. Run batted in—Di Maggio, Clark, Lindell, York. Home run—York. Stolen bases—Tucker, Di Maggio, Dickey and Michaels. Wallase and York. Kulloway, Wallace and York. Strinweis, Rizzuto and McQuinn. Left on base—Chicago 6, New York 8. Bases on balls—Lopat 5, Shea 3. Strikeouts—Shea 8, Lopat 3. Umpires—Weaver, McKinley, McGowan and Groyne. Time—1:52. Attendance—3,968 paid.

### Cornstark Juice Is Alcohol Source

New York—(SS)—Midwesterners who can remember back to prohibition days do not need to be reminded that a potent alcoholic source cornstark juice could be, as it seeped down to the bottom of the silo. Unless the hired man was zinc-lined, Monday morning was very apt to find him rubber-legged.

Now the same stuff, reformed and de-headed, has been presented as a possible source of industrial alcohol. Before the meeting of the American Chemical Society here, Herbert C. Gore of Scarsdale, N.Y., presented in detail the procedure whereby he has been able to make alcohol out of the juice of mature but still undried cornstarks. He obtained yields of 95% alcohol at rates of from 50 to 95 gallons per acre of cornstarks.

Van Wagoner Gets A Government Post In Berlin, Germany

Detroit, Sept. 17 (P)—Former Governor Murray D. Van Wagoner plans to leave tomorrow for Berlin on a war department assignment.

He will be an engineering consultant to Gen. Lucius D. Clay, military governor of the American occupation zone. It will be Van Wagoner's second trip to Berlin. His first was in 1938 when he was Michigan highway commissioner.

**DIZZY WILL HURL AGAIN**—Jerome "Dizzy" Dean, ex-Cardinal great who, in 1934, pitched 30 wins for the Cards; lost only seven, is shown signing to play with St. Louis Browns in the American League. His last year as a player was 1940. Ed Smith, left, of Browns' management, and Johnny O'Hara, Dean's partner on radio baseball broadcast, watch signing in St. Louis. (NEA Telephoto)

**WOMEN'S WESTERN WINNER**—Louise Suggs (right), who retained her Women's Western Golf title with a 9 and 8 victory over Carol Dinger (left), is shown with Mrs. Wrisley Olson, president of the Women's Western Golf association, after presentation of the championship cup at the Evanston, Ill., golf club. (NEA Telephoto)

**ON A BICYCLE BUILT FOR TWO-COUPLES**—A two-time tandem is the super-bike pictured above on which two gay Cleveland, Ohio, couples are shown as they started off for a day's outing on their eight-foot-power vehicle.

## Rash Of Hits Gives Red Sox Decision Over Browns, 10-6

Boston, Sept. 18 (P)—Trailing 0-6 after the first three innings the Boston Red Sox broke out in a rash today, polling 14 of their 16 hits in the next three innings for all their runs in a 10-6 victory over the St. Louis Browns.

The smallest crowd of the season, 3592, was in the stands.

Most authoritative whack was Bobby Doerr's 17th homer with which he greeted reliever Fred Sanford after starter Cliff Fanning had been derelicted because of yielding successive singles to Dom Dimaggio and Ted Williams. Both Williams and Dimag scored ahead of Doerr.

Sam Mele strengthened his bid for rookie of the year title by getting five hits in five trips, one of them a double, and driving in two runs.

Williams, the league's leading batter got three for five, driving home two Boston scores. All were to left field.

### Leonard Jinx Ends As Reds Wallop Philadelphia, 9-4

Cincinnati, Sept. 18 (P)—The Cincinnati Reds today finally caught up with Emil (Dutch) Leonard, Philadelphia pitcher who had beaten them three times previously this season, knocked him from the box in the sixth inning and went on to win 9 to 4.

It was the final game of the year between the teams and gave the Reds a 13-9 edge. Cincinnati pounded out 15 hits.

Eddie Ewart went the route for the Reds, allowing 12 hits. Today's paid attendance was only 1,140.

### Chicago Man Gives 18 Horses Away

Chicago—(P)—Maynard Dowell, horse lover and busy Chicago executive whose "free horses" advertisement received more than 16,000 replies, has announced the names of 18 "winners."

Among the recipients were three small brothers from McAllen, Texas, and a Manawa, Wis., boy. All of the other recipients were Illinoisans, including a girl polio victim, a partially paralyzed girl and a young woman recovering from what was first believed an incurable ailment.

The president of a steel fabricating concern, Dowell, 40, advertised Aug. 31 that he wished to dispose of his stable of riding horses and would give them free to persons who could provide them good homes and care.

He read the letters of application and awarded the horses on the basis of suitability and merit of the applicant.

## GIANT HOMERS NOW TOTAL 211

Four-Bagger Helps Beat Chicago, 9-5; Cubs Have Fat Third Inning

Chicago, Sept. 18, (P)—The New York Giants hiked their home run total for the season to 211 today in their 9 to 5 triumph over the Chicago Cubs.

Bobby Thomson's four-bag smash in the third with a mate on base was good for two runs after the Giants could score but a single tally in the first on four singles.

The Cubs got all their runs in a fat third inning that included doubles by Phil Cavarretta and Johnny Miller, starting pitcher.

### Fluorescent Light Will Be Improved

New Orleans—(SS)—Better fluorescent lighting is obtained by the use of higher frequency currents, the Illuminating Engineering Society was told here by John H. Campbell of General Electric.

General application will await the development of frequency converters for homes and offices to change the present 60-cycle power into frequencies in the range of from 300 to 600 cycles.

The converters will have to be efficient and low in initial cost if the advantages of the new system for operating fluorescent lamps are to be obtained.

The efficiency of light output can be increased about 25% by use of the higher frequency, he said, and the cost of the ballast reduced considerably.

The so-called ballast is the choke coil used to control and stabilize the electric discharge in the tube of the fluorescent lamp. The decreased cost in the ballast is due to the fact that with the higher frequencies a ballast weighing only a few ounces can be used, compared with a ballast of several pounds used with the 60-cycle power.

The so-called bloom on the calla lily actually is a leaf and not a flower at all.

### Parents Asked To Fill Blanks For Religious School

Parents of students in all city schools desiring to attend a religious week day school at the church of their parents' choosing must submit a written request to the schools, it was announced yesterday.

The religious instruction is for both Catholic and Protestant children. Students have received a blank to be filled out and signed by their parents stating their request.

This school year, the grade school children will be released on Tuesday mornings instead of Mondays as of last year. Beginning next Tuesday, fifth and sixth graders attending religious school will go directly to their churches at 9 a. m. Third and fourth graders will be dismissed at recess in time to arrive at the churches at 10:30 a. m.

This will mark the first year that junior high school students will be released from city schools to attend the religious classes. Classes for junior high students will begin at 8:45 a. m. next Monday and will end in time for them to return to school for their regular 10 a. m. classes.

### Robert J. Reese Fined For Driving Car While Tipsy

Robert J. Reese, of Brampton, pleaded guilty to a charge of driving an automobile while under the influence of liquor when he was arraigned in justice court here yesterday. Reese was fined \$50 and \$8.25 court costs and his license was suspended. He was arrested by city police on the 300 block of Stephenson avenue Wednesday evening.

Lawrence Willette, 1113 Third avenue north, pleaded not guilty to a drunk driving charge in justice court yesterday and a hearing is scheduled this afternoon. He was arrested at 3:00 a. m. Thursday on the 300 block of Stephenson avenue.

### Former Menominee Educator Claims Chemical Find

Menominee, Mich.—An educator who once was superintendent of the Menominee public schools and is now professor emeritus of inorganic chemistry at the University of Illinois is out to defend his claim to being the discoverer of a chemical element which he named illinium on Mar. 6, 1926, in honor of the University of Illinois.

He is Dr. B. S. Hopkins, 74, who came to Menominee about 1900 to serve first as principal of Menominee high school and later as superintendent, succeeding Prof. O. L. Woodley.

While in Menominee Dr. Hopkins wed Miss Maude Childs, an English instructor at the high school. Dr. Hopkins is now a resident of Urbana and served on the U. of I. faculty for 3 years until his retirement in 1944.

Dr. Hopkins this week went to New York where he is seeking an unscheduled place on the program of the 112th national meeting of the American Chemical Society, which is being attended

### Vets Interested In Agriculture School Will Meet Monday

All veterans of World War II in Delta county interested in agricultural training and instruction under the Veterans' Administration on-the-farm training program are asked to meet at the luncheon room of the Escanaba junior high school at 7:30 next Monday evening.

A class of from 25 to 30 veterans is expected to participate in this type of training provided under the G. I. Bill of Rights.

The men will meet with William G. Olin, agriculture training specialist of the Upper Peninsula VA office in Escanaba. Training programs for each on their respective farms will be lined up.

Guy Williams, of Oconto, Wis., by 11,000 chemists from all parts of the U. S. and from many foreign countries.

a graduate of the University of Wisconsin and a former teacher in the Hermansville high school, has been appointed veterans' agriculture instructor in Delta county. He will teach the courses offered.

Williams will visit each farm to assist the students and also will conduct four hours of class work each week in the Escanaba senior high school. The class will meet one night each week.

### Storm Sewer Will Improve Property Near 22nd Street

A storm sewer being laid by a city crew on 22nd street a half block on both sides of Ludington street will close an open ditch that now traverses the street, City Manager A. V. Aronson said yesterday.

The improvement will materially benefit property owners in that locality. The ditch now empties into Butcher creek and the storm drain will connect with the creek, Aronson said. The job will require about another week's work.

### Hermansville

**THOMAS WERY**  
Hermansville, Mich.—Funeral services will be held at 9 a. m. Saturday at St. Mary's church, Hermansville, for Thomas Wery, a former Hermansville resident who died at the family home in Port Washington, Wis. Burial will be in Norway.

Wery who graduated from Hermansville high school with the class of 1947, leaves in addition to his parents Mr. and Mrs. Octave Wery, a sister Elaine of Chicago and two brothers Glen and Francis.

The body will arrive in Norway on Thursday and will lie in state at the Asp Funeral home until Saturday.

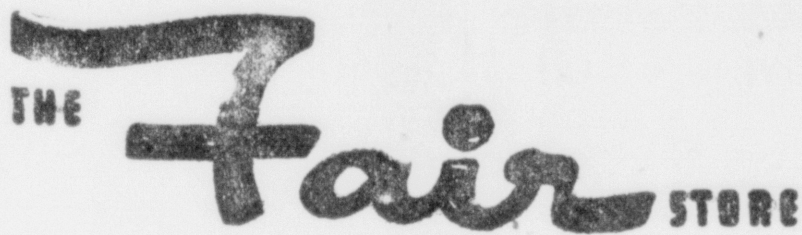

### Trenary

John Case has returned to Detroit to attend Wayne University after visiting his mother, Mrs. Herbert Finlan, for a week.

About 26,400 miles of 295 U.S. rivers are navigable.
